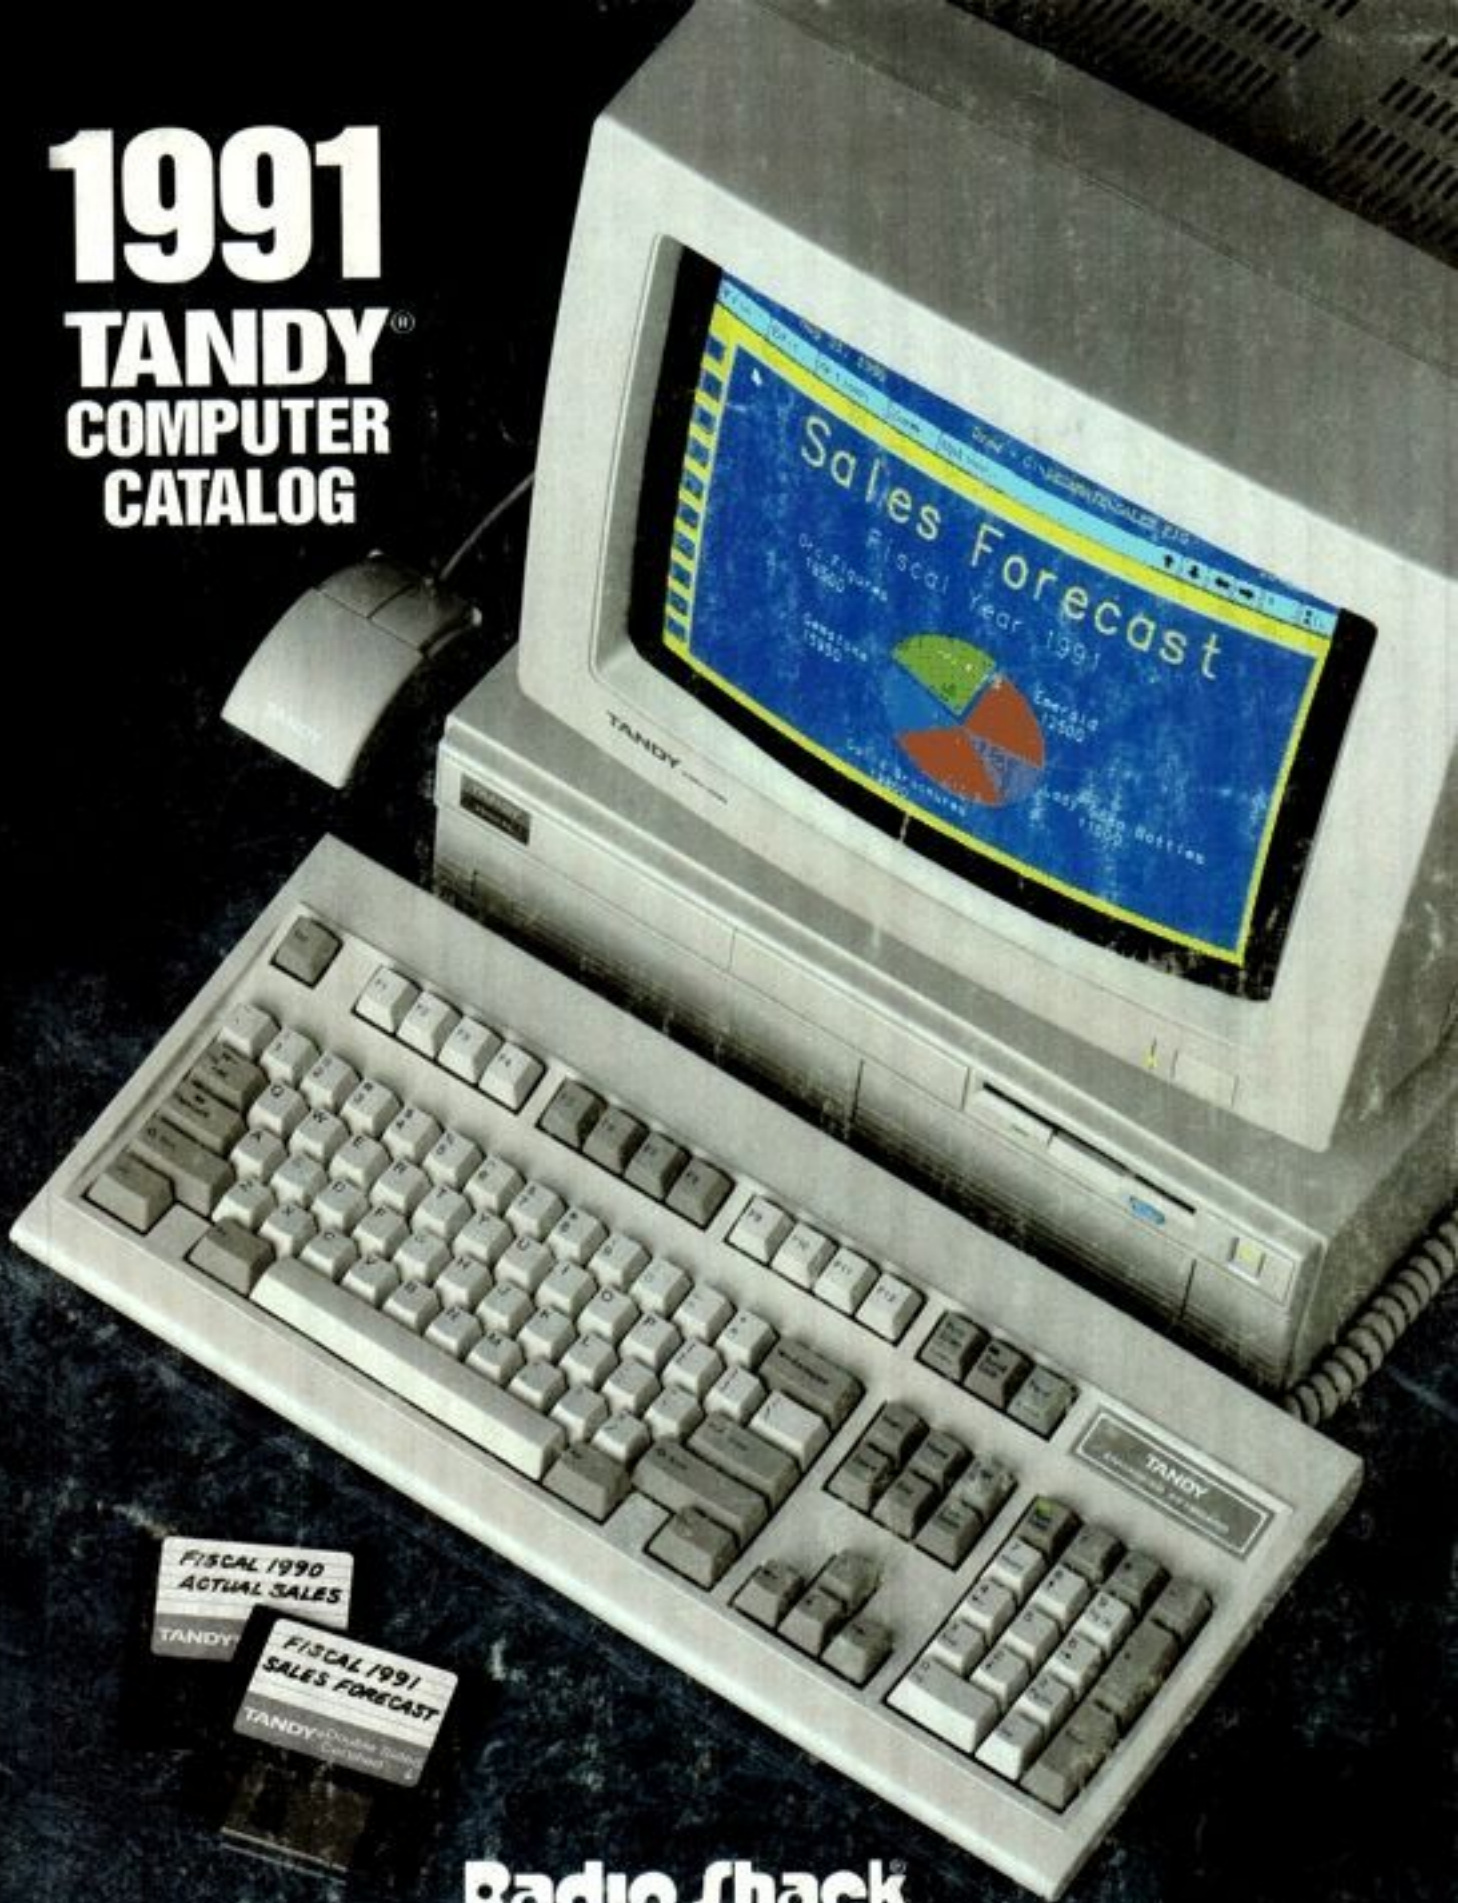
1991 TANDY® COMPUTER CATALOG



Radio Shack®
COMPUTER CENTERS
A DIVISION OF TANDY CORPORATION

THE 1991 TANDY® COMPUTER LINEUP:

Tandy Computers are the Best Value for Millions of Businesses, Educators and Home Users

Look to the name Tandy for the broadest line of PC compatibles made in America. Tandy Computers are relied on every day to get the job done right, and to get it done fast.

We manufacture Tandy desktop computers in our own U.S. plants to the most exacting quality standards in the industry. Reliable performance is our design objective—in fact, over 60% of the space and manpower in our plants is devoted exclusively to quality control. This attention to detail results in a remarkable 33,000-hour mean time between failures—that's equivalent to eight hours a day of operation, five days a week for 15½ years *without a breakdown.*

Tandy Computers provide state-of-the-art features and remarkable ease-of-use—an unbeatable combination. In this catalog, you'll find our entire line of Tandy Computer products, from the new Tandy 1000 RL, designed *specifically* for home needs, to the Tandy 4033LX, a state-of-the-art high performance business computer with power to share.

Compatibility and connectivity are important to us—because they are important to you. Tandy Computers can run all the popular MS-DOS, MS OS/2, and SCO XENIX software titles—we answer every need you may have. We serve office network needs as well, using advanced technology from 3Com, Novell and SCO XENIX to let your people and PCs work together.

Tandy Computers create new standards in technology. Our DeskMate Graphical User Interface® offers unparalleled ease of use, and our instant-on circuitry and incredible speech and sound capabilities revolutionized home computers. Now, with our Tandy 2500 XL, you can access a world of information using an optional *internal* CD-ROM drive.

We also offer the peripherals you need, including printers, modems, hard disks and network linkups. And with over 1,000 titles available, our Express Order Software service gives you fast "online" access to the most popular software programs on the market.

Only Radio Shack Computer Centers have what it takes to turn computer systems into *complete PC solutions.* We offer the most complete range of support services in the industry, including training, system installation,

BECAUSE THERE IS NO BETTER VALUE.℠

network planning, commercial leasing and nationwide service (see pages 28-29). Telephone hotlines and personal assistance from our Systems Engineers also start you out on the right track.

To make things even more convenient, Radio Shack Computer Centers now offer the comprehensive SSP service and support plan, which includes installation, training, and extended warranty protection. All computer systems shown with this logo include the SSP plan.

SSP
SERVICE AND SUPPORT PLAN

You get all this from a name you can trust—technology has been our business for 70 years. In 1977, we were the first company to successfully manufacture and market a personal computer—nobody's been in the business longer. NOBODY COMPARES!

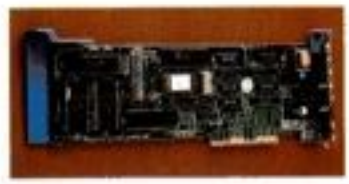
Quick Index to Affordable Computing Solutions

PC-Compatible Computers 4-21
Presenting the 1990 Tandy line of desktop and laptop PC-compatible computers, from high-end 386 systems that are built for business to affordable home systems that offer the most innovative range of features in the industry. All offer incomparable quality, reliability and value.

Printers and Scanners 22-27
Next to your computer, nothing beats a Tandy printer. We offer laser printers for superb clarity, dot-matrix printers for affordable quality and high-speed performance (including a new color printer), and graphics printers and scanners for impressive presentation-quality imaging.

What We Mean by Total Support . . 28-29
Over 700 Radio Shack Computer Centers nationwide offer America the products, the personnel, the comprehensive services and the business and education expertise that no other company can match. That's just part of the reason there is no better value than Tandy Computers.

Software and Books 30-35
The most popular business productivity, accounting, personal productivity, entertainment and educational software available. Great titles that get the job done for you . . . many featuring the DeskMate Graphical User Interface for convenient ease of use.



Networks and Expansion 36-45
A complete line of monitors, hard/floppy disk and data storage options, and CD-ROM drives that offer incredible access to worlds of information. Also modems, networking accessories, memory expansion, and other options that can make your computer even more useful.

Furniture, Power Management, Cables and Accessories 46-49
Workcenter desks, printer stands and other quality furniture that can make your office or home office the perfect environment for productivity. Also power strips, printer cables and ribbons, and other accessories for customizing your system.

Home Office Equipment 50-55
Whether you're running a business or bringing work home, we offer a variety of products to meet your needs, including cellular telephones, FAX machines, portable computers and our new copy machine. They all bear the Tandy name—trusted by millions for quality, reliability and value.

TANDY 386-BASED PCs SET THE STANDARD IN HIGH PERFORMANCE

The Desktops of Choice When You Need Power to Share

Tandy offers a wide range of computers using the powerful Intel 80386 microprocessor. This chip opens up brand new worlds of computing options, from high-performance, stand-alone workstations to complete office-connected environments.

The chief advantage of 386-based systems is speed. We offer systems that operate at speeds of up to 33 MHz. Plus, we enhance this quick performance through the use of memory interleaving, as well as advanced memory caching, to provide you with highly efficient information management. We've matched 386 power with advanced features to bring you the optimum in data retrieval.

High speed is the key to operating large XENIX-based multiuser systems and workgroups. And when combined with optional math coprocessors, such number-intensive applications as inventory management are streamlined, as well as advanced CAD/CAM operations.

With a XENIX environment, you can put up to 65 users to work, efficiently, using the same software, operating from inexpensive data terminals. Plus, you can use a 386 machine with a Microsoft Windows platform to run different applications concurrently without loss of time or control.

Tandy offers the best in 386 options, including both the industry-standard ISA platform, which utilizes the architecture to support today's most widely used peripherals and upgrades, as well as an alternative: the Tandy 5000 MC with IBM® Micro Channel™ architecture. This design expands the data path from 16 bits to 32 bits and allows multiple microprocessors (intelligent peripherals) to use the same bus. The effect is to optimize throughput between the I/O devices and the CPU.

Whatever your business, Tandy has a 386-based system that will put you on the fast track.

Innovative ProSlot™ Technology

Just one of the many outstanding features built into our 386-based computers, ProSlot technology (available on our 4000 series) gives us maximum flexibility in installing different processor boards in standard systems. ProSlot provides a savings that is then passed on to you. Advanced design and total control in manufacturing: Tandy technology keeps your costs down.

Get the System Designed for Your Needs

The Tandy 4033 LX
From $169 Per Month*

- Wholesale/distribution
- CAD/CAM applications
- Statistical analysis
- Desktop publishing
- Programming/development

- Inventory management

The Tandy 5000 MC
From $135 Per Month*

- Business analysis
- Spreadsheets
- Data processing
- Desktop publishing
- Statistical analysis
- Mainframe connectivity
- CAD/CAM applications

A Tandy 386-based system can serve as a high-speed stand-alone system. And with power to share, they're also the PCs of choice for multiuser or networked office systems.

Our Tandy 4033 LX has the incredible processing speed to be the ultimate file server in a XENIX environment. The 4033 has the power to support up to 65 users in a complete office link-up for heavy applications like accounting.

The Tandy 4025 LX is perfectly suited for smaller XENIX environments. Both systems are capable of supporting users who are simultaneously processing many transactions.

The Tandy 4016 DX is the perfect stand-alone machine for the power user. 386 power and industry-standard architecture combine for efficiency and productivity.

And for the Micro Channel alternative, we offer the powerful Tandy 5000 MC, which is compatible with IBM Micro Channel architecture.

See page 6 for pricing and specifications.

*CPU Only on Our 36-mo. Commercial Lease (Plus Applicable Use/Sales Tax)

Tandy 386-Based Systems Boost Your Productivity with Advanced Features

80386 power

The Intel 80386 microprocessor features a 32-bit data path for ultra-high performance. The 4000 series utilizes the 80386 in an ISA (Industry Standard Architecture) design, while the 5000 MC offers you 32-bit Micro Channel™ architecture (MCA).

Zero-wait-state performance

In order to maximize the potential of the speed of the 386 processor, we've supercharged memory access on the Tandy LX series and the 5000 MC by adding the Intel 82385 memory cache controller. Ordinarily, when a cpu searches for requested information, your computer sits idle, in a "wait state" until your data can be located in memory. With the memory cache, we've placed 32K of memory in static RAM chips where information can be found instantaneously. The cpu goes directly to the cache, eliminating the wait state.

Built-in VGA graphics

A high-speed, 16-bit VGA adapter lets you create 640 × 480 graphics. Add a color VGA monitor and display astonishing graphics in 256 colors—from a palette of 256,000 colors—for near-photographic clarity. Or use a low-cost monochrome monitor to create superb displays in 64 shades of gray. VGA graphics, combined with 386 speed, make these computers ideal for desktop publishing and CAD/CAM applications.

Disk drive expansion

A 3½" 1.44MB disk drive is standard. You can add a second 3½" device, such as a second floppy drive or hard drive, plus there is room for two 5¼" devices, such as a tape backup system, or a ½-height, large-capacity hard drive.

Internal expansion

The DX and LX computers have five available 16-bit expansion slots (four 13" slots, two half-size slots with one occupied by the VGA adapter) for adding AT®-style adapters. The 5000 MC has five IBM® Micro Channel slots (two 32-bit, three 16-bit). All 386 systems feature two dedicated 32-bit memory slots for expansion to 16MB.

Math coprocessor

For additional speed in math-intensive applications, such as heavy data processing, you can add an optional Intel 80387 math coprocessor.

SmartDrive™ IDE technology

Our DX and LX series use SmartDrive technology. This allows you to add high-performance SmartDrive hard drives without the need or expense of a separate controller.

Internal clock

A real-time clock with battery backup sets the date and time automatically.

Keyboard

An enhanced 101-key keyboard with tactile feedback comes with twelve function keys and a separate, calculator-style keypad for fast numeric input.

COMPLETE 386-BASED XENIX MULTIUSER BUSINESS SYSTEMS

Tandy 4016 DX System

The Small-Office System—Affordable Power for Three People, Expandable to Ten

System Price **$8,999**

Lease for Only **$245** Per Month*

SSP SERVICE AND SUPPORT PLAN

- 4MB Tandy 4016 DX, VGM-100 color monitor, 105MB SmartDrive, DMP 442 dot-matrix printer and SCO XENIX
- System includes three DT-110 data terminals and cables
- Includes installation, on-site training and support and a one-year Tandy on-site service plan

Here's a basic SCO XENIX-based system that will provide a small business or department with rapid access to the same programs and data. It's ideal for all types of small-office environments. Save $1520.12 on this complete system!

Includes 25-4025/25-4040/25-4130/25-5001/25-5031 (three)/25-5050 (three)/25-5203/25-6030/26-0227/26-0265 (three)/26-0293 (three)/26-1496 (three)/26-2822
Reg. Sep. Items $10,519.12

Tandy 4025 LX System

The Departmental System—Outfit Your Entire Work Area—for Six People, Expandable to 12

System Price **$12,999**

Lease for Only **$344** Per Month*

SSP SERVICE AND SUPPORT PLAN

- 10MB Tandy 4025 LX, VGM-100 monitor, 105MB SmartDrive, DMP 2130 printer, 60MB Tape Drive and SCO XENIX
- System includes five DT-110 data terminals and cables
- Includes installation, on-site training and support and a one-year Tandy on-site service plan

If you have a larger number of people who need access to information, the Tandy 4025 LX system will meet most medium-sized business needs. The higher memory will speed access of information to all your department members . . . simultaneously. Save $2342.84 on this complete system!

We've Combined the Power of the 80386SX Processor with Innovative Design

- Intel 80386SX microprocessor for affordable 32-bit performance
- Memory expandable to 16MB
- Built-in 16-bit VGA graphics
- SmartDrive™ IDE hard drive support
- Small footprint, yet remarkable expansion—three available AT® slots, plus three device slots

Get the combination of 32-bit performance with 16-bit hardware compatibility. The innovative design features hinged, swing-open expansion bays for easy access to card slots and storage devices. Plus, SmartDrive technology lets you add hard drives without adding a separate controller. A parallel printer port, RS-232 serial interface, mouse port and 16-bit VGA graphics are all built in, leaving three full-length 16-bit expansion slots free. (TSP Available)

THE PCs OF CHOICE WHEN YOU WANT 386 POWER AT A 286 PRICE

Get the Tandy 4016 and 4020 SX Advantage

For small businesses growing at a fast pace, the 4016 and 4020 SX can keep you up to speed. From complex accounting calculations to detailed graphics design, our SX computers thrive on almost any intensive application that demands the power of a fast professional system.

The 4000 SX series is perfect for creative, versatile desktop publishing. A built-in, 16-bit VGA card lets you add a color analog monitor and display astonishing graphics with near-photographic clarity. Create high-resolution, 640 x 480 graphics using a palette of 256,000 colors. Or use a low-cost monochrome monitor to create superb graphics in 64 shades of gray.

For added speed in math-intensive applications such as spreadsheet analysis and database management, you can install an Intel 80387SX coprocessor.

Due to the microprocessor's unique design, the 4016 and 4020 SX support multitasking applications developed for MS OS/2, Microsoft Windows and MS-DOS.

You get the combination of 32-bit performance with industry-standard 16-bit hardware compatibility. An 80386SX system is a low-cost alternative to a 386 system; you won't be left behind when you want to move on to advanced 386-based applications.

Need 386 power for your small business or home office at the price of a 286-based system? Look to the remarkable Tandy 4016 or 4020 SX.

Engineered for Fast, Easy Expansion

The Tandy 4016 SX and 4020 SX (and the Tandy 2500 XL, next page) feature a unique hinged-bay design which swings open for easy access to card slots and storage devices. This makes upgrades quick and easy.

The Tandy 4016 SX "Professional System"

- Tandy 4016 SX with internal 52MB hard drive

SIMPLY OUR EASIEST-TO-USE BUSINESS-CLASS PC...EVER

Ready to Run with Built-In DeskMate® and MS-DOS

The Tandy 2500 XL is the new standard in ease of use for 286-based AT®-compatible business computers. Just turn it on—instead of a blank screen and cryptic commands, you'll be greeted by the DeskMate Graphical User Interface® with a neat, organized display of your programs. DeskMate replaces cryptic codes with plain-English commands to help guide you through tasks quickly and simply.

Plus, since MS-DOS is already built into memory, you never have to insert a "system disk." The operating system loads in seconds, and you're ready to begin running thousands of popular PC-compatible programs just by inserting them into the built-in 3½" floppy drive.

With its built-in sophisticated sound-reproduction system, the 2500 XL will generate new life into your programs. When used with an optional microphone, and the sound editor on the built-in DeskMate® software, you'll be able to record, edit and play back sound effects from a variety of sources. Record from TV, stereo or your own voice, then save them onto diskette for playback later.

You can even add a CD-ROM drive to access entire reference works on convenient CD-ROM compact discs—selections like Compton's MultiMedia Encyclopedia™ come alive, thanks to the 2500 XL's built-in VGA graphics and digital sound. (See page 39 for a listing of additional CD-ROM titles.)

The new Tandy 2500 XL . . . doing business has never been easier.

DeskMate® User Interface by Tandy

Discover The Friendly Face in the PC Crowd℠

To give their programs the same look and feel, leading software publishers are adopting the same DeskMate Graphical User Interface incorporated in the Tandy 2500 XL. Just a few of the titles available include Lotus Spreadsheet for DeskMate, Q&A Write, Venture Accounting and Quicken. Use one, and you've essentially learned how to use them all. It's the ultimate in ease of use for first-time users, the ultimate in convenience for experienced users! Look for the DeskMate logo on the package.

More Features and Expansion Than Ever Before in This Small a Footprint

The Tandy 2500 XL represents a breakthrough in power-for-size design. The 2500 XL is a true AT compatible which is only 4¼" high, 15½" wide and 15" deep!

Yet, the 2500 XL boasts 80286 power, operating at 10 MHz, with a 10MHz bus design for rapid accessing of peripherals. It supports three full-length, 16-bit expansion cards and comes with a 3½" 1.44MB floppy drive with room to add another 3½" device and one 5¼" device.

Expansion is easy with the innovative case design. Hinged expansion bays swing open for easy access to card slots and devices. With its metal chassis, the 2500 XL's case is rugged and safe.

Plus, the Tandy 2500 XL supports SmartDrive™ technology, which allows you to add a hard drive without a separate controller board.

The Tandy 2500 XL comes with 1MB of memory, expandable to 16MB, 8-bit, bidirectional digital-to-analog converter (DAC) for sound-and-speech generation, as well as serial, bidirectional parallel and mouse ports. (TSP Available) **$1499**

BEGIN YOUR HOME OFFICE WITH A TANDY 1000 TL/2

Enjoy the Power and Convenience of an Office Computer—At Home

Home office computing couldn't be easier than with the Tandy 1000 TL/2. That's because the easy-to-use DeskMate Interface is built in—and ten DeskMate productivity applications are included. Just seconds after you turn the 1000 TL/2 on, up comes a neat, organized display of your programs. Programs like Word Processing for writing letters, memos and school reports, a Spreadsheet for analyzing and tracking both your business and personal finances, a Calendar and a Filer for keeping on time and organized, an Address Book for creating client-based mailing lists and PC-Link for keeping in touch with the world.

And, since the Tandy 1000 TL/2 is PC compatible, it can run thousands of business programs, including accounting applications, database management and even desktop publishing, as well as education and entertainment software. The Tandy 1000 TL/2 is the versatile home office computer the whole family can enjoy.

DeskMate®
User Interface by Tandy

Discover the DeskMate Difference

As soon as you turn your computer on, you'll see why the DeskMate Interface is The Friendly Face in the PC Crowd™. Since DeskMate translates cryptic DOS commands into plain English, you can be up and running in no time—without having to learn how to communicate with your computer first. Pop-up dialog boxes, handy pull-down menus and context-sensitive help screens guide you quickly through unfamiliar tasks—just point and click. Best of all, because commands are similar, once you've learned one program with the DeskMate Interface, you've really learned them all! Look for software with the DeskMate logo.

The Tandy 1000 RL Has Earned
The Good Housekeeping Seal

www.RadioShackCatalogs.com

THE NEW EASY-TO-USE SUCCESS GUARANTEED TANDY 1000 RL

A FAMILY PC SO EASY, IT GUARANTEES SUCCESS!

The Tandy 1000 RL is Your Home Organizer

NEW! Finally—an easy-to-use PC that can serve as a true "information center" for your home! The Tandy 1000 RL gives you the tools to manage your finances, plan schedules and file your valuable information. It's small—with a CPU size of just 2⅞ x 15 x 14", the RL is half the size of some computers—perfect for the kitchen, den or any "busy" place in your home.

The 1000 RL is a fully-functioning PC. Bring work home from the office or school. MS-DOS and the DeskMate Interface (with its easy-to-follow menus and prompts) are built-in, making the RL simple and convenient for everyone in your family. And the RL has 512K RAM—enough for most applications—and can be upgraded to 768K. Use DeskMate's included software, or choose from thousands of PC-compatible applications.

The 1000 RL's unique design allows it to operate without a cooling fan, so it's one of the quietest computers ever. No annoying "hum"—just cool, efficient silence. A 3½" 720K disk drive is built-in—change diskettes, and it loads them for you automatically! And the 101-key enhanced keyboard is identical to the keyboard used with our top-of-the-line 386 business computers.

An expansion slot lets you add accessories such as an internal modem. An additional drive/device slot lets you add either a second 3½" disk drive or a 20MB SmartDrive. And the Tandy 1000 RL comes with many "extras" built-in—video board, PS/2 mouse port, printer port, serial port, two joystick ports, a volume-controlled headphone jack and a microphone jack for recording actual speech and sound.

The easiest computer ever . . . from America's leader in PC compatibles. (TSP available) **599.95**

TANDY
1000 RL
HARD DRIVE

For Even More Power and Convenience...

A Tandy exclusive! This machine is ready to run, with no installation or formatting required—it couldn't be easier! DeskMate software, with nine applications *plus* Home Organizer's 15 applications, is already loaded onto the built-in 20MB SmartDrive, so you can get started the minute you turn your computer on. You can load your own programs onto the hard drive for convenience and improved speed of operation. A real time clock with battery backup is also included in this system. (TSP available) **999.95**
25-1451, **Low As $30 Per Month**

Only the Tandy 1000 RL Includes DeskMate and the Home Organizer™ With 24 Time-Saving Applications to Organize Your Busy Lifestyle

The Tandy 1000 RL offers added value because it includes DeskMate's word processing, graphics and more.

But that's not all. The 1000 RL also comes with The Home Organizer, a software package that could actually change your way of life.

Based on the easy-to-use DeskMate Interface, the Home Organizer can help you with virtually every aspect of everyday life—from planning dinner to investing for your future.

The Home Organizer offers applications in three distinct categories, each with solutions for simplifying your lifestyle:

- Personal—itemize your belongings, record helpful information and keep a diary. Create an itinerary of a vacation or business trip.
- Kitchen—browse through recipes from *The New Good Housekeeping Cookbook*®, plan menus, and prepare a grocery list.
- Financial—keep records, balance your checkbook, track your expenses and figure loan payments.

There's even an Information Center with a "bulletin board" for leaving messages, plus a list of important phone numbers and a date book.

OPERATING SYSTEMS: THE FOUNDATION OF YOUR COMPUTER SOLUTION

Choosing the Right Operating System

Operating systems provide the necessary instructions computers need to utilize all of the components in a system, as well as to interact with applications software. Your operating system selection will ultimately determine the capabilities of your system—including both the hardware and software.

1) *For what tasks or applications (word processing, accounting, database management, etc.) will my new computer system be used?*

   If your computer is to be used primarily for one task—such as word processing—then the MS-DOS system should be your first consideration. If you need several tasks to be run simultaneously, then you should consider one of the multiuser systems instead.

2) *Will it be necessary for more than one person to use the computer at the same time?*

   If so, then a local area network or the multiuser SCO XENIX is probably the solution for you. Benefits of these systems include improved communications, faster access to information and increased staff productivity.

3) *Do I see my business expanding appreciably in the next year? In the next two years?*

   Switching from one operating system to another can be very expensive. Examine your projected expansion and future needs before making your final decision.

While there are a number of different factors that should be considered when purchasing an operating system, the following general guidelines can help you make an informed decision.

In addition, your Radio Shack sales representative and the local system engineer are valuable resources for answering any questions you may have.

Comparing Operating Systems

Following are general explanations of each of the three industry-standard operating systems.

Single-User: MS-DOS®

Microsoft®

By far the most widely used personal computer operating system today, the Microsoft Disk Operating System (MS-DOS) is designed to support one user—running one task or application at a time—on a single computer.

MS-DOS 3.30 is a proven operating system that provides full functionality and requires less overhead memory than MS-DOS 4.01, the enhanced version for hard drives with partitions over 32MB. Less memory used by the operating system leaves more memory for software applications, particularly on a workstation in a local area network.

Intended Business Use	Recommended Operating System
Personal Workstation:	
Floppy drive or hard drive	MS-DOS 3.30
Hard drive with partitions over 32MB	MS-DOS 4.01
LAN Workstation (3Com & Novell)	MS-DOS 3.30
LAN Server (3Com & Novell)	MS-DOS 3.30

Comparison of Multiuser Operating Systems

Operating System	Intended Use			No. Users	Expansion Capabilities	Minimum CPU
	Educ	Sm Bus	Med Bus			
SCO XENIX 386		Yes	Yes	32	Good	4016 DX
Novell ELS I		Yes		4	Limited	2500 XL
Novell ELS II		Yes		8	Limited	4016 SX
Novell Advanced	Yes		Yes	100	Good	4016 DX
Novell SFT	Yes		Yes	100	Good	4016 DX
3Com 3+Share	Yes		Yes	Unlimited	Excellent	4016 DX
3Com 3+Open ESII		Yes		10	Limited	4016 SX
3Com 3+Open Adv.	Yes		Yes	Unlimited	Excellent	4016 DX

Local Area Network

3Com® NOVELL®

A local area network (LAN) is simply the connection of individual computers to share data, applications, peripherals and other resources. The LAN provides a host of benefits in addition to its resource-sharing capabilities, including electronic mail (E-Mail), mainframe connectivity, the ability to link to other networks and remote access capabilities.

Industry-leading Novell NetWare provides a variety of network operating systems tailored to the individual requirements of your business, from the small office to corporate-wide installations.

Another technology leader in networking, 3Com provides the 3+Share network operating system and the 3+Open environment.

Multiuser: SCO XENIX Operating System

SCO THE SANTA CRUZ OPERATION

SCO XENIX 386 from The Santa Cruz Operation makes full use of the 80386 processor to support multiple users running many different tasks concurrently. Running from a terminal such as the DT-110, users are able to access the same applications simultaneously, providing an excellent environment for accounting and other office automation tasks.

With SCO VP/ix, users can also take advantage of the wide range of MS-DOS applications available.

System Installation and Support

Radio Shack provides a complete line of services to assist you in selecting, implementing, and maintaining your business computer system:

- An on-site needs analysis of your business requirements and a recommendation on the appropriate operating system and applications software solution.
- Recommendations on the computer model and peripherals required by the operating system and applications.
- A site survey of your location to determine Local Area Network or SCO XENIX wiring requirements.
- Configuration advice providing a detailed description and roadmap of your Local Area Network or XENIX system.
- Hardware and software setup and installation.
- Training
- Technical support
- Nationwide service facilities providing both carry-in and on-site plans.

www.RadioShackCatalogs.com

What about a Graphical User Interface?

A graphical user interface presents functions and options in a consistent and logical manner, often using icons or pictures to represent the function. In general, a graphical user interface provides the following benefits:

- Insulates the user from the operating system command line interface. You no longer have to remember confusing commands and syntax to perform common functions.
- Provides organization for your application programs, disk files, etc.
- Reduces the time required to learn the basics of operating a computer.

DeskMate

DeskMate User Interface by Tandy

The user-friendly DeskMate Graphical User Interface and DeskMate productivity software are included with all Tandy 1000 RL, 1000 TL/2 and 2500 XL computers.

MS Windows 3.0

Microsoft Windows 3.0 is recommended on the Tandy 4000 and 5000 series computers. This versatile graphical user interface for 80286 and 80386 processors lets you work with DOS and Windows applications simultaneously and transfer data between them.

Tandy Laptop Computers for PC-Compatible Power...on the Go

In today's changing world of heavy schedules, travel and incessant meetings, computer needs change as fast as lifestyles. And more people than ever are turning to MS-DOS based laptop computers for the ultimate in flexibility and convenience.

With a laptop computer, you have real PC power wherever you go. Power to take notes and compose reports, to perform complex cost analyses, to perform intricate mathematical computations. In short, you have the power of a desktop PC in a small, lightweight design you can carry anywhere.

For the busy executive or manager, a portable makes the perfect "second system" that can be taken to and from the office. For heavy travelers, a laptop is a natural companion. And for students, it's the perfect study aid for classroom or dorm room.

Tandy laptops are better by design—Tandy goes above and beyond the standards of other manufacturers. For instance, our keyboards emulate the full 101-key keyboards with standard key spacing, and they use the same commands as desktop PCs. The large display screens are easy on the eyes, too. And because we offer support today and tomorrow, a Tandy laptop is a superb long-term investment.

GET 286 POWER FOR BUSINESS APPLICATIONS IN A LAPTOP

Ready to Go With a 20MB Hard Drive

- 80C286 microprocessor with 12 MHz clock speed
- Built-in hard drive stores over 4000 pages of text
- MS-DOS and DeskMate software pre-installed and ready to use on the hard drive
- 8⅝ x 9½" screen with 640 x 400 EGA graphics
- 1MB of RAM, expandable to 2MB
- 84-key keyboard with 101-key emulation
- "Executive black" case

The Tandy 2800 HD is a full-function PC compatible for people who demand the power of a 286-based desktop computer with the added advantage of portable mobility.

The MS-DOS operating system and DeskMate 3 productivity software come installed on the 2800's hard drive, so you can get right to work. The DeskMate Graphical User Interface® lets you organize your programs and access them all, via the keyboard, with just a point and click—it's that easy.

The DeskMate Interface looks great on the blue-on-white supertwist display, which allows for easy viewing in any light. And the high-resolution screen displays EGA graphics with a 16-gray scale range.

The battery can be recharged internally while the 2800 is on or off, or by using the included external battery charger and AC adapter (UL listed).

And since the Tandy 2800 HD can also function as a powerful desktop system, it's ready to use with an optional color monitor, printer and a separate 101-key keyboard. Now you can get real desktop power in a truly portable PC compatible. Only 12.5 pounds. 3¼ x 12¼ x 13⅞". Was $3499.00 in Cat. RSC-21A. (TSP available)

NOTEBOOK SIZE, HARD DRIVE POWER

A Slim, 10MHz PC With DeskMate® Software Ready-to-Run on the Built-In Hard Drive

- Built-in 20MB hard drive
- Comes with MS-DOS and DeskMate software already installed
- Only 1¾ x 12⅜ x 10"
- Lightweight—less than 6 lbs.
- Non-glare high-definition screen with bottom-lit backlighting
- 640 x 200 CGA graphics
- 640K memory, expandable to 1.64MB
- 84-key keyboard, 101-key emulation with exclusive "Tandy Key Switch"
- Distinctive "executive black" case

NEW! Here's real computing power for anyone who needs a truly portable PC compatible. The Tandy 1500 HD features a built-in hard drive with MS-DOS for running today's most popular programs. Just turn it on and you're ready to run thousands of software titles. It's perfect for anyone on the go. Plus, you can use it as a desktop PC.

The 1500 HD's size, weight and rugged case make it the perfect traveling companion. It comes with a rechargeable, replaceable battery, and built-in power-saving features that give you up to three-and-a-half hours per charge. "Tandy Power View" LEDs let you know the battery status . . . and tell you when you have mistakenly left the unit on.

And since the 1500 HD comes with DeskMate software and the DeskMate Graphical User Interface® already installed, you can begin computing right away. The Interface uses pull-down menus and pop-up dialogue boxes to guide you through tasks easily. You also have access to DeskMate's ten productivity applications, including word processing, spreadsheet analysis, electronic filing, telecommunications and much more.

Optional Bitstream Fontware typefaces let you express yourself with style

Laser Printers Offer Top-Of-The-Line Quality for Image-Conscious Companies

When the very best in printed text and graphics is a must for the image of your company, then your choice for investment is a dependable, high-speed laser printer. Laser printers offer superb printed output for any business application, from ready-to-mail form letters and envelopes to desktop publishing. In their graphics mode, laser printers can produce camera-ready output, generating up to 300 dots per inch for super-fine resolution. And the results you get from word processing programs with a laser printer rival the work created by professional typesetters, especially with the wide variety of optional type fonts available—see your Radio Shack Software Buyer's Guide RSC-22S for selections. Keep in mind, too, that when speed is important to your productivity, laser printers are up to six times as fast as dot-matrix machines.

THE AFFORDABLE SOLUTION FOR YOUR HIGH-SPEED LASER PRINTING NEEDS

Space-Saving LP 950 Laser Printer: Low-Cost Investment/High-End Results

- Prints a Full Six Pages Per Minute
- Compact Footprint
- 512K Memory Expandable to Two Megabytes
- 300 Dots-Per-Inch Super-Fine Resolution
- Two Font Card Slots for Extra Online Font Capability
- Emulations: HP LaserJet II, IBM Proprinter, IBM Graphics Printer, Epson FX-80 and Diablo 630

NEW! LP 950 Laser Printer. If you've been putting off buying a laser printer for your business because of the prohibitive cost, now is your chance to own or lease a powerful new laser printer . . . affordably. The new Tandy LP 950—with its high-speed, professional-quality output—is the ideal printer for your business's word processing and desktop publishing needs.

The LP 950 boasts a fast text-printing speed of a full six pages per minute and generates razor-sharp graphics with a high, crisp resolution of 300 dots per inch. Its front-loading paper cassette holds 250 sheets and its output trays offer either paper up or paper down options.

Measuring only 10½ x 13⅜ x 14¼", the compact LP 950 is perfect for small offices or anyplace else where space is at a premium. The versatile LP 950 features convenient front panel controls with LCD status indicators, 512K memory expandable to 2 megabytes, standard PC parallel and RS-232C interfaces and two font card slots—see below for a selection of optional font cards. And even at this low price, the LP 950 Laser Printer comes complete with a Toner Cartridge, a Developer Cartridge, a Drum Cartridge and a Letter-Size Paper Cassette. UL listed. Its unique 28-wire printhead and flat-bed carriage make this printer ultra-fast—even when working with multiple copies! The innovative flat-bed carriage design feeds faster than normal rolled-platen carriages. In addition, the flat bed can accommodate thicker stock papers up to 16½" wide—and still prints an original plus 5 copies at super-high speed.

The "push" tractor feed offers convenient one-inch tear for fanfold paper and multipart forms, making the DMP 2130 the ideal business printing machine for all your office work, including accounting, word processing, mail merging and forms printing. The DMP 2130 also features semi-automatic loading of cut sheet paper, as well as Paper Park for convenient switching from fanfold to single-sheet printing.

For high-speed printing, the DMP 2130 is hard to beat at a super-fast 480 characters per second, with a near letter-quality mode for all your business correspondence needs. There is also a "quiet" mode so that while the printer is working, you can be working, too. Front panel controls make menu setting and option choosing as easy as pressing a button. And with its print buffer of 32K and graphics resolution of 240 dots per inch, you'll find the DMP 2130 is the only printer your office will ever need. UL listed AC. (TSP available)

What Are the Advantages of Using Dot-Matrix Printers at Home or Work?

Whether you need a printer for your personal or business use, choosing the right printer to complement your computer system is one of the most crucial investment decisions you can make. Recent innovations in printhead technology mean that many of today's 24-wire dot-matrix printers produce professional-quality work that comes close to laser printing. Many also have graphics capability for spreadsheet charts and desktop publishing. Some even offer color printing to draw attention to your business charts, school reports, newsletters and other documents. "Push" tractor feeds let you detach single-form or continuous fanfold paper without waste, while "pull" tractor feeds are ideal for multipart business forms and labels. Printers with Paper Park let you print a single cut sheet or envelope—without removing your fanfold paper!

In their draft or utility mode, dot-matrix printers rapidly produce first drafts, memos, and working spreadsheets, while the Courier or Prestige mode produces sharp, near letter-quality copies of annual reports, school reports or newsletters. Pitch options such as pica or elite let you print various sizes of typefaces. And convenient, front-panel menus give you fingertip control over all your printing specifications.

PROTECT YOUR INVESTMENT—TANDY SERVICE PLANS ARE AVAILABLE FOR MANY PRODUCTS. ASK FOR DETAILS.

AT RADIO SHACK COMPUTER CENTERS,

Complete PC Solutions Backed by Total Support

Over 700 Radio Shack Computer Centers nationwide carry our complete line of PCs, including high-performance business systems and a wide range of software. And just as important, we offer the support services so vital in turning computer systems into complete PC solutions.

Call Us...and We'll Come to You

Our direct sales team is at your call! Prior to recommending a complete PC solution, these trained professionals will come to your office to gain firsthand knowledge of your business. Based on their needs analysis, they can put together a solution based around a standalone, multiuser or networked computer system. Plus, our marketing team is trained to provide specialized support in manufacturing, distribution and retail applications. For an appointment, call your nearest Radio Shack Computer Center.

In Business...For Business®

We offer the most comprehensive range of support services in the industry. Specially trained systems engineers at every Computer Center provide the level of technical expertise today's businesses need. System engineers can configure sophisticated multiuser and networked office systems specifically for your business. Such systems are then integrated, tested and shipped direct from our regional distribution centers to simplify installation by our technicians. And we can answer your questions in person, by phone or via the PC-Link online service.

You Can Rely on Our Nationwide Service Network

We offer timely, professional and affordable service. Our technicians can come to you or you can bring your equipment to any of the 7000 participating Radio Shack stores, Computer Centers and authorized dealers. For a minimal cost, carry-in and on-site Tandy Service Plans—extending your limited warranty—are available on all Tandy Computers, including the CPU, related accessories and internally-installed enhancements, as well as most peripherals.

We've Built Our Reputation on Quality Products

Radio Shack Computer Centers carry the complete line of Tandy computers, as well as matching Tandy printers, accessories—even cables. Local inventory is available in each center to assure fast delivery and installation.

All Tandy products are made by us or for us to our demanding specifications. And every Tandy business computer is backed with a one-year limited warranty.

Professional Training: Because Knowledge Is Power

Comprehensive instruction is available at your place of business or in one of our classrooms. We offer introductory courses for beginners as well as more advanced courses and specialized software courses. Many of our classrooms are also Microsoft authorized. We offer the latest in instructor-led, as well as computer-based learning techniques for maximum proficiency in a minimum of time.

Radio Shack

We Offer a Variety of Credit Options

Radio Shack makes it easy for individuals and businesses to enjoy the latest in computer and office technology. The Radio Shack ValuePlus® (RSVP) revolving credit program offers you a personal line of credit that is separate from your other accounts. Your application may be approved in a matter of minutes. Budget your purchases with monthly payments, or pay your balance in full and avoid finance charges for the current billing cycle. Actual payments may vary depending upon your RSVP account balance. We also honor major credit cards, including American Express, Carte Blanche, Diners Club, Discover, MasterCard and Visa. In addition, 30-day term invoicing and volume purchasing agreements are available for qualified commercial and institutional organizations. Ask for details at any Radio Shack Computer Center. And remember, there's no annual fee!

www.RadioShackCatalogs.com

WE WORK HARD FOR YOUR BUSINESS

Tandy Computer Leasing

Leasing allows your company to obtain a ready-to-run business system without an up-front capital expenditure. Tandy Computer Leasing offers a true lease for tax purposes, with a variety of terms so that the entire monthly rental may be fully tax deductible! Tandy computer systems, software, third-party hardware and peripherals, installation, training, support and taxes may all be included. And for qualified educational institutions, special fiscally funded contracts are also available.

EXPRESS ORDER
A DIVISION OF TANDY CORPORATION

We're Your Source for the Best in Software

Our Express Order service gives you access to over 1000 different software packages! Ask for your free copy of our new Radio Shack Software Buyer's Guide (RSC-22S), and browse through the many titles available. Our computerized order system will put a priority "RUSH" on your software, because we understand how important your time is to you.

Radio Shack: The Education Specialists

Radio Shack is dedicated to education. Our Education Division's field force of area education managers and education specialists is trained to meet the instructional and administrative needs of education at all levels. They're devoted to supporting Tandy computers . . . and bringing them together in the classroom with SchoolMate, our educational network solution. SchoolMate is designed with teachers in mind, making their time in the classroom more productive and helping them to do what they do best: teach.

See Us for Custom Forms, Stationery, Labels

Radio Shack Computer Centers provide a complete selection of convenient, custom-designed business forms, stationery, envelopes and labels designed to enhance the image of your business or organization. All are guaranteed to be compatible with Tandy computer systems.

Attention Consultants!

Recognizing the need for specific "industry expertise" or for more "customized" systems, Radio Shack continues to develop relationships with the consulting and software development communities. Through the Consultant Liaison Program (CLP), you have a source for quality PCs at thousands of locations nationwide. We support the computer hardware, so you have the freedom to concentrate on what you do best—providing your services and specific solutions. For more information, contact any Computer Center, or write to CLP, Dept. RSC-22, 1500 One Tandy Center, Fort Worth, TX, 76102. Phone (817) 390-2900.

Interested in Computer Marketing?

If you have sales ability, are willing to work to achieve maximum results and are interested in compensation keyed to productivity, then our Radio Shack Computer Center training programs may be the career opportunity you've been looking for. Our continuing growth has made numerous career opportunities available in many market areas. For the location of the District Sales Office nearest you, write to: Professional Employment, Dept. 22, 500 One Tandy Center, Fort Worth, Texas 76102.

THE ESSENTIALS OF PC SOFTWARE

Create Lasting Impressions With Word Processing and Desktop Publishing

Features of Word Processing

Word processing programs let you make text revisions quickly and easily, giving you neat, correction-free copies. A sampling of sophisticated features includes "Cut and Paste" and "Search and Replace" for rearranging and manipulating your text within or between documents, "Mail Merge" for personalizing form letters, a spelling checker or thesaurus, a footnote generator and the ability to add graphics to your pages.

NEW! WordPerfect 5.1.
25-1268 ..... 495.00
NEW! WordPerfect 5.0 XENIX.
25-4117 ..... 995.00
WordPerfect Additional Workstation.
25-1427 ..... 295.00

Desktop Publishing Programs

Popular for creating page layouts for newsletters and other publications, these programs easily manipulate and integrate text (usually imported from a word processor since these programs provide limited editing capability) and graphics (from imported clip art, drawings, scanned images, etc.). The finished result is then usually displayed on-screen exactly as it will appear on the page. These programs also let you set font sizes and attributes, resize and crop graphics, draw boxes and more.

Spreadsheets and Database Management to Organize Your Files and Finances

Spreadsheet Use

Manage all your financial tasks—budgeting, forecasting, cost analysis and more—quickly and easily with the spreadsheet programs listed here. These spreadsheets allow you to update numbers rapidly, calculate complex mathematical formulas automatically and then produce graphical representations of your data in the form of pie, line or bar charts. For a professional look, you can also enhance your reports with boldface, italics and underlined text.

Database Management Systems

These versatile management systems can sort, calculate, rearrange, cross-reference, catalog, store, retrieve and print data from your databases quickly and efficiently. Features range from powerful report writing capabilities to development tools and languages which let you automate screens and customize applications. Automatically update your information as needed. Reduce costly paperwork and turn your data into meaningful information—fast!

DOING BUSINESS BY THE NUMBERS

Computerized Accounting

The key to a successful business is knowing your financial status. A computerized accounting system gives you immediate access to that information. And, not only does it relieve you of the counter-productive task of double-entry bookkeeping, it also enables you to send out monthly statements to maintain an optimum cash flow.

The single-user, integrated accounting packages listed here offer the basic yet powerful solutions you need to enhance your small business. As your company grows, these programs then become the basis for moving on to the more sophisticated network or XENIX accounting solutions.

DISCOVER THE DESKMATE DIFFERENCE

DeskMate®
User Interface by Tandy

These Programs Feature the Easy-to-Use DeskMate Interface!

The DeskMate Graphical User Interface provides a similar operating environment for an expanding selection of MS-DOS-based applications. Pop-up dialogue boxes and handy pull-down menus make it easy to use with the keyboard, or with the "point and click" convenience of a mouse. Function keys work similarly from program to program—learn to use one program with the DeskMate Interface, and you've essentially learned to use them all. Discover the DeskMate difference . . . the friendly face in the PC crowd.™

Utilities! Disk Management

- Ultra-Convenient Disk Applications
- DeskMate's Ease-of-Use

Retrieve lost files. *Optimize* your disk for faster read/write times. Use *Txtfind* to locate contents of a document. Also features *Diskwipe*, *Filewipe* and more than a dozen other utilities. 25-1288 **49.95**

DeskMate 3 Productivity Software. Latest version! For Tandy and other PC-compatible computers. Each day, DeskMate will greet you with the Desktop. This neat, organized display lists DeskMate applications as well as other programs you may own—and you can access them all with just a point and a click of your mouse! The desktop also translates MS-DOS commands into plain English, so you won't have to learn cryptic codes. A collection of applications is included for writing letters, budgeting, filing and scheduling appointments. There's even a draw program and word game. A tutorial program will get you "up and running" in no time. And wherever you are in the program, you can always ask DeskMate's help function for timely, on-the-spot advice.
25-1351 . . . . . 99.95

DeskMate Form Finisher. The answer to one of your biggest business needs today, letting you fill in preprinted forms quickly and easily, using any dot matrix printer. Use it for invoices, shipping forms, legal forms and more. Requires 512K and two disk drives. 25-1295 . . . . . 39.95

Backup Pro. Is your data safe tonight? Use this high-speed utility to back up important files quickly and easily from your hard disk. Offers unparalleled flexibility in allowing you to customize backup and restore procedures for your individual data handling needs.

Choosing the Right Monitor

Seeing is believing! Monochrome monitors are your most economical choice—great for text-based applications and basic spreadsheets. CGA and high-resolution CGA monitors give you clear color for business charts and arcade-like games. Top-quality VGA color monitors are ideal for engineers and anyone else who needs crisp, precision resolution. Ask for a comparison and see the difference for yourself!

ACCESS A PC LIBRARY ON CD-ROM

Discover a World of Information

- Access Entire Reference Works on a Single CD-ROM Compact Disk
- Open Your Computer to Volumes of Important Facts and Figures
- Multimedia Selections Offer Brilliant Graphics and Amazing Sound Reproduction
- Great for Education and Thought-Provoking Relaxation

A CD-ROM player puts an entire reference library as close as your PC! Literally millions of facts and figures, plus entire reference works are available on CD-ROM discs. These discs resemble standard compact audio discs, but a single CD-ROM (Read Only Memory) disc is capable of providing up to 550 megabytes of data—the equivalent of over 760 3½" floppy disks! MultiMedia titles not only present text, but detailed graphics, animation—even speech and sound. Instead of leafing through book after book, let your PC and CD-ROM cut through mountains of data to bring you just the information you need.

CDR-1500 Internal CD-ROM Drive

- No Cables—Perfect for Libraries and Classroom Instruction
- Plugs easily into 5¼" device slot

NEW! An internal, high-speed "third generation" CD-ROM drive for demanding applications that opens your computer to volumes of important data. It's everything you need to experience a world of information right from the front panel of your PC. Includes disc caddy, PC/XT interface card, Microsoft CD-ROM extensions and mounting hardware and instructions. For Tandy 1000/2500/3000/4000 and PC Compatibles with internal 5¼" device slot. (TSP Available) 25-1081 **$895**

Hitachi External PC/XT CD-ROM Drive. Comes with an interface card and Microsoft CD-ROM extensions. For Tandy 1000/3000/4000 PC compatibles. (TSP Available) 900-2156 ..... 995.00

Hitachi External CD-ROM Drive for MicroChannel PCs

NEW! For Tandy 5000 and other MicroChannel PCs. Comes with MicroChannel interface card and Microsoft CD-ROM extensions. For Tandy 5000 and other MC computers. (TSP Available) 90-2374 ..... **$1095**

CD-ROM Discs for Educational, Business and Personal Use

NEW! Sherlock Holmes. Join the world's greatest consulting detective as he and Dr. Watson solve crimes in these classic stories.
900-2900 ..... 99.00

NEW! Food Analyst. Whether you are watching your weight or keeping track of nutrients, Food Analyst is an indispendable tool. 900-2902 ..... 99.00

NEW! Case of the Cautious Condor. When a murder is committed aboard the luxury liner Condor, you have only 20 minutes to solve the crime. Talk to passengers and follow over 1500 paths . . . but only one leads to the killer.
900-1071 ..... 49.95

Microsoft Small Business Consultant. Over 200 publications from the Small Business Administration and other government agencies.
900-5504 ..... 149.00

NEW! Grolier's Electronic Encyclopedia. Cited by librarians, students and teachers as a superior research tool with over 4000 new and revised articles.
900-5503 ..... 395.00

CIA World Fact Book. The CIA's annual almanac that describes political and foreign affairs of every territory in the world.
900-2890 ..... 99.00

These and more CD-ROM titles are available by special order through all participating Radio Shack stores, Computer Centers and dealers. See the 1991 Radio Shack Software Buyer's Guide (RSC-22S) for more information.

REALIZE YOUR PC'S FULL POTENTIAL

Stay On Top of Business With Upgrades

In any serious business, whether you're working or playing, flexibility is often your greatest asset. And when *you* expand, your PC needs to expand with you.

Radio Shack customers know that when it comes to their computing needs, we provide a *total* solution. This includes a complete line of expansion adapters, memory kits, math co-processors and specialty expansion items to give you the flexibility you need to stay ahead. All the items in our expansion line have been preselected for quality, compatibility and value. So you can be sure that you'll get the job done today . . . and tomorrow.

X-10 POWERHOUSE Home Control Computer Interface

Now you can use your computer for security, comfort, energy savings, and just plain fun! You can control lights and appliances in your home to make it look and sound lived in—all without tying up your computer. Transmits up to 128 timer events over your existing house wiring. With simple menus and an accurate, modifiable floorplan of your house, program X-10 or Radio Shack Plug 'n Power appliance modules (sold separately) to go on and off at various times on different days of the week, or group up to 16 different modules.

5¼", 905-2087 . . . . . 69.95

BRING YOUR MEMORY UP TO SPEED

Increase Your Potential and Your Productivity With Memory Upgrades

Like all Tandy products, our computer memory kits are manufactured to exacting standards and each one is carefully tested for quality, compatibility and proper operation in your Tandy computer. Many of our memory kits can also be used to upgrade other PC compatibles—check with your nearby Radio Shack, Radio Shack Computer Center or authorized dealer for details.

MS-DOS and OS/2. Break the DOS 640K barrier with the new Microsoft Windows 3.0, which gives direct access to up to 16MB of extended memory. Both MS Windows and OS/2 take full advantage of additional memory for large spreadsheets and multitasking.

Local Area Networks. Additional expanded memory at the PC workstation allows the user to load device drivers and network drivers into the memory area above 640K, freeing conventional memory for use by application software.

SCO XENIX. As the number of users accessing your SCO XENIX system increases, additional extended memory will insure there are no processing or access delays.

Tandy Business Systems Memory Expansion Reference Guide

Tandy 2500 XL & Tandy 4016 SX	Expand from 1MB to:							
	2MB	4MB	6MB	8MB	10MB	12MB	14MB	16MB

Tandy FaxMate™ With The DeskMate Interface

An easy-to-use facsimile board featuring software that uses the DeskMate Graphical User Interface®. Simply create a cover sheet using the fax software utility, then compose the document using any DeskMate application and send the data to the desired destination at 4800 bps. Using the stand-alone MS-DOS mode, standard PC software may also be used. In this mode you can display and print incoming faxes, broadcast a fax to several different recipients or poll other stations for incoming faxes. FaxMate interacts with Tandy and other PC-compatible computers with 640K RAM and a hard drive. 25-3063 **349.95**

Online News and Information Services Let You Access a World of Information

USA TODAY Sports Center. This informative online service lets you track your favorite sports team, stay up-to-date on current sporting events, play games and shop—all without leaving the room! You'll get the stats, scores and schedules of your favorite teams and players. Fantasy Sports Games let you combine your knowledge with real-life players and stats. Discount Store has great prices on sports supplies, equipment and clothing. You can even place ads in a nation-wide classified section at no extra charge! No serious sports fan should be without it! 25-1258 ..... 29.95

NETWORK OFFICE SOLUTIONS BY TANDY

Helping You Make the Right Connections

Now you can use your PC to share information with colleagues, update files in a common database and route communications electronically. Radio Shack can provide the right network solution to meet all your computing needs. We deliver high-speed performance, IBM® compatibility, remote connectivity and enhanced functionality using industry standards.

Whether you're in charge of an educational institution, a small but growing business or a large corporation, your nearby Radio Shack Computer Center representative can give you complete details on acquiring a fast, efficient, custom-tailored networking solution that will save you time, effort and money from the moment you go online.

Network Installation and Support

Put Radio Shack's networking experience to work for your business. For more than a decade, our reputation for installation, training, total support and service has been unsurpassed. We provide the performance, standards and expandability that assure your initial investment will be maintained now and as your network grows.

Radio Shack offers complete turnkey service. Our Direct Sales Team will perform an on-site needs analysis to determine the right solution for your business, whether it's a standalone, multiuser or networked office system. Our Systems Engineers are trained to configure sophisticated XENIX multiuser or office networks, and can tailor a system around your specific applications. System components are then integrated, tested and shipped direct from our regional distribution centers—all to ensure that your network is functioning and ready to run in a minimum of time. After installing your system, our support staff provides on-site training to introduce your employees to the advantages of sharing information and peripherals.

Let our years of experience in office systems go to work for you . . . call your nearby Radio Shack Computer Center today.

Network Operating Systems

NOVELL

ELS I. Entry-level system for up to four workstations.
