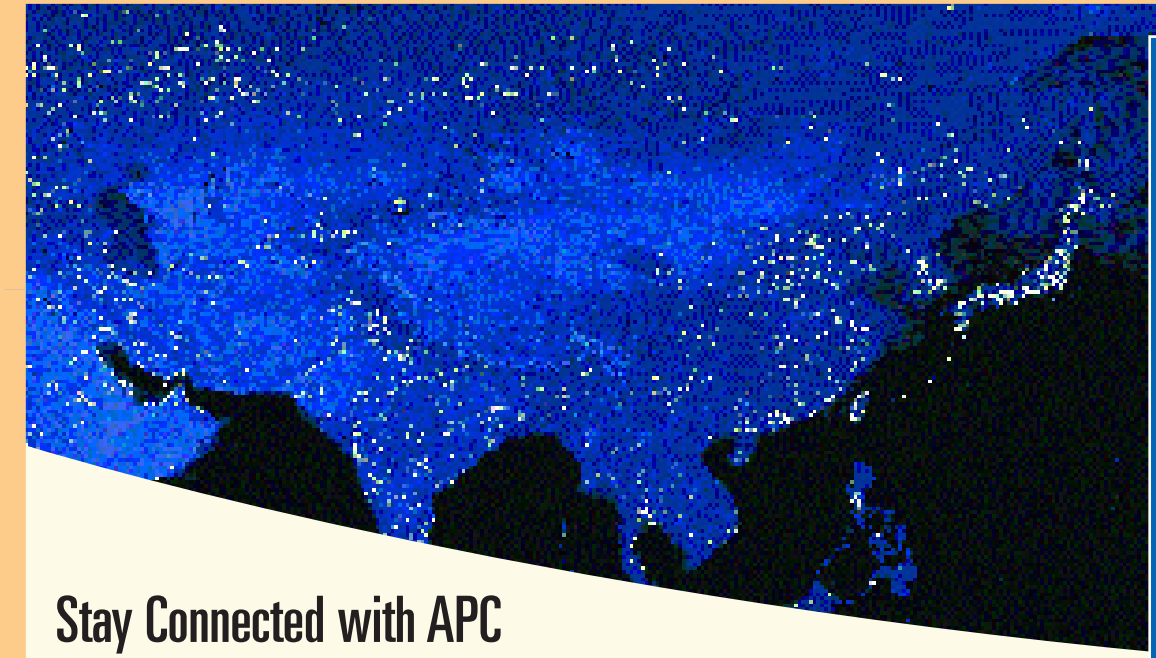
Reliability Products for Home, Office, and On-the-Go!

APC®

Legendary Reliability®



Stay Connected with APC

Whether you're at home, in the office, or on-the-go, electronics are your connection to the world. You surf the Web from home, put in extra hours at work, and often times take your mobile office on the road, in the air, or overseas. Imagine what would happen if, suddenly, you were unable to perform the daily functions made so convenient by today's technology?

Trust APC to provide you with end-to-end solutions ranging from surge protection to battery backup and mobile solutions.

As the thought leader in power protection, APC keeps pace with the ever-changing technologies that you depend on, ensuring they are always available to you.

Join the 15 million satisfied customers who rely on APC's Legendary Reliability® to keep them up and running, no matter where they are.

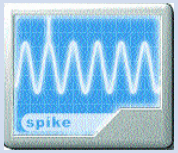
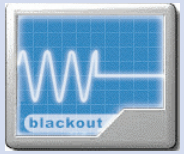
What does Battery Backup do for you?

- Protects your equipment from 100% of power problems
- Preserves valuable data on your hard drive
- Saves sentimental digital pictures and MPEGS
- Saves time in resetting DVR's, rebooting media PC's, etc.
- Guarantees picture quality during brownouts and blackouts
- Provides maximum availability for VoIP....911 service!

Power anomalies that affect your equipment:

Power Anomaly:	SURGE Short-term increase in RMS voltage levels	SPIKE Dramatic and instantaneous increase in voltage	NOISE INTERFERENCE Electromagnetic and radio frequency interference (EMI/RFI)	BROWNOUT/OVER-VOLTAGE Sustained low or high RMS voltage levels	BLACKOUT RMS voltage goes to "0"	VOLTAGE DISTORTION RMS voltage waveform is distorted
				 		




Typical Cause of Disturbance:	Start/stop of household appliances (washing machine, AC, etc)	Lightning	Generated by appliances, HAM radios, nearby radio stations and even AV equipment itself	Too much demand on electric utility; running of larger household appliances	Overloaded utility network; storm activity; downed power lines; animal infestation	Powering household appliances and power tools

A **battery backup** instantly switches your computer to emergency power, allowing you to work through brief power outages or shut down your system in the event of an extended outage.

A high performance **surge protector** guards your computer from electrical noise and damaging power surges - even lightning.

Award-Winning Surge Protection

When lightning strikes, be sure to keep your electronics out of harm's way. Safeguard them from harmful power sags, spikes, and surges with APC's line of award-winning surge protection products.

APC's SurgeArrest® line is designed to protect your electronic devices from damage related to power events. Additional benefits specific to individual models include coaxial cable, telephone line, and data line surge protection.

Essential Series

The Essential series offers surge protection for computers and home electronics.

P6B

- 6 outlets
- <330v let through voltage rating

P74

- 7 outlets
- <330v let through voltage rating

P7T

- 7 outlets
- <330v let through voltage rating
- Telephone line surge protection

Home/Office Series

The SurgeArrest® Home/Office series offers surge protection ideal for small office and home equipment such as home PCs, printers and modems.

PH8T3

- 8 outlets
- <85v let through voltage rating
- Telephone protection with 2-way splitter
- Plug-activated safety shutters

PH8VT3

- 8 outlets
- <85v let through voltage rating
- Telephone protection with 2-way splitter
- Coaxial cable protection
- Plug-activated safety shutters

Performance Series

The SurgeArrest® Performance series provides maximum protection for high performance multimedia computers and electronic equipment.

PF11VT3

- 11 outlets
- <40v let through voltage rating
- Telephone protection with 2-way splitter
- Coaxial cable protection
- Overload indicator
- Plug-activated safety shutters

PF11VNT3

- 11 outlets
- <40v let through voltage rating
- Telephone protection with 2-way splitter
- Network dataline surge protection
- Coaxial cable and Ethernet protection
- Overload indicator
- Plug-activated safety shutters

Surge + Battery Backup

The APC Surge Protector + Battery Backup protects your hardware from physical damage and keeps you up and running when the power goes out, providing enough time to save your files and shut down.

BE325

- 4 outlets
- <85v let through voltage rating
- Telephone protection with 2-way splitter
- Plug-activated safety shutters
- Battery Backup Power

Legendary Battery Backup Solutions

You depend on continuous power to keep your electronics running and connected. The problem? Power is very unreliable. Sags, surges, and outages can strike when you least expect, costing you time, money, and data.

With APC's comprehensive Back-UPS® series, you can work through power outages rather than work around them. APC Battery Backup products come with easy to use (and install) software that will save your files and gracefully shut down your system in the event of an extended outage. That's legendary power protection you can count on.

ES Series

Back-UPS® ES series offers affordable battery backup ideal for home and home office use. All models feature safe system shutdown software, USB connectivity, and a $75,000 Equipment Protection Policy.

BE350R

- 27 minutes runtime *(typ. load)*
- 8 outlets – 4 surge only, 4 battery backup
- Telephone line surge protection

BE500R

- 44 minutes runtime *(typ. load)*
- 8 outlets – 4 surge only, 4 battery backup
- Telephone line surge protection

BE750BB

(ideal for Broadband Internet users)

- 70 minutes runtime *(typ. load)*
- 10 outlets – 5 surge only, 5 battery backup
- Telephone line surge protection
- Ethernet data line surge protection
- Coaxial cable surge protection

BE650R

(ideal for Broadband Internet users)

- 62 minutes runtime *(typ. load)*
- 8 outlets – 4 surge only, 4 battery backup
- Telephone line surge protection
- Ethernet data line surge protection
- Coaxial cable surge protection

XS Series

The Back-UPS® XS series provides power protection for high-performance office electronics. A slim design offers users more runtime in a smaller footprint. Automatic Voltage Regulation (AVR) corrects under-voltages without draining the battery. All models feature safe system shutdown software and a $150,000 Equipment Protection Policy.

BX900

- 75 minutes runtime *(typ. load)*
- 7 outlets – 3 surge only, 4 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation

BX1200

- 99 minutes runtime *(typ. load)*
- 8 outlets – 2 surge only, 6 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation
- USB/Serial connectivity
- Versatile Mounting

BX1500

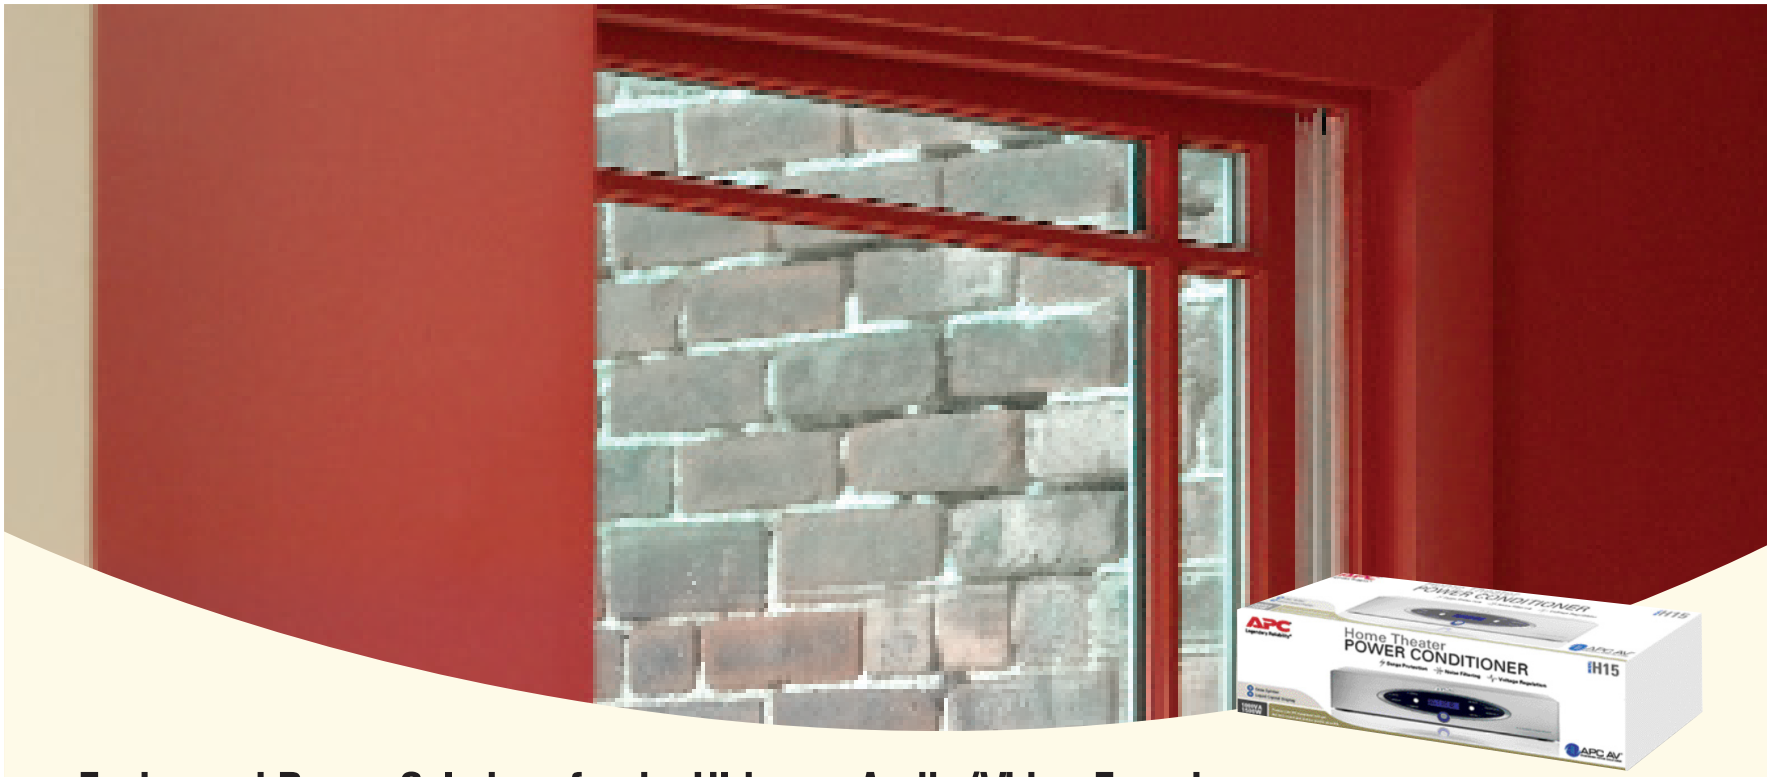
- 110 minutes runtime *(typ. load)*
- 8 outlets – 2 surge only, 6 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation
- USB/Serial connectivity
- Versatile Mounting

BX1500BP

- 360 minutes runtime *(typ. load)*
- 8 outlets – 2 surge only, 6 battery backup
- Telephone line surge protection
- Automatic Voltage Regulation
- USB/Serial connectivity
- Versatile Mounting
- BP24BP battery pack included

BR24BP

- 1500VA extra battery pack



Engineered Power Solutions for the Ultimate Audio/Video Experience

It is likely that you have much more invested in your home entertainment system than you do in your home computer system. And, like any computer, your home theater components are quite vulnerable to power disturbances. Therefore, it's worthwhile to invest in audio/video power protection.

Surges and spikes can destroy your AV equipment outright. Fluctuating voltages can stress component power supplies resulting in premature failure. Electromagnetic and Radio Frequency Interference (EMI/RFI noise) can negatively impact sound and video quality. APC AV power protection eliminates all these problems.

APC AV™
ENGINEERED POWER SOLUTIONS℠

J Type Power Conditioners With Battery Backup

Premium surge protection, noise filtering, voltage regulation, and battery backup for high performance audio/video systems.

J10

- 12 outlets
- 1000VA power capacity
- Battery backup
- Automatic Voltage Regulation
- Surge protection
- Isolated noise filtering
- LCD display
- 3 pairs of COAX protection jacks
- Phone line protection jacks
- DC trigger

J15

- 12 outlets
- 1500VA power capacity
- Battery backup
- Automatic Voltage Regulation
- Surge protection
- Isolated noise filtering
- LCD display
- 3 pairs of COAX protection jacks with splitter
- Ethernet protection jacks
- Phone line protection jacks
- DC trigger

H Type Power Conditioners

Complete surge protection, noise filtering and voltage regulation for audio/video components.

H10

- 1000VA power capacity
- 12 outlets
- <40V let through voltage rating
- Automatic Voltage Regulation
- Isolated noise filtering
- DC trigger
- LED status indicators
- 2 pairs of COAX protection with splitter
- Phone line protection

H15

- 1500VA power capacity
- 12 outlets
- <40V let through voltage rating
- Automatic Voltage Regulation
- Isolated noise filtering
- DC trigger
- LED status indicators
- LCD display panel
- 2 pairs COAX protection with splitter
- Phone line protection

C Type Power Filters

Guaranteed protection against surges, spikes, even lightning.

C5

- 10 Surge-protected Outlets
- Isolated EMI/RFI Noise Filter Banks
- COAX and Phone Protection Jacks

C10

- 12 Surge-protected Outlets
- Isolated EMI/RFI Noise Filter Banks
- COAX, Ethernet and Phone Protection Jacks

A/V Interconnects

Engineered and constructed to keep a/v signals clean and pure, our A/V cables enable your equipment to provide the best sound and video quality possible. APC offers a full assortment of digital and analog interconnects, including DVI and HDMI, as well as power cords.

Audio/Video Surge Protectors

Premium Surge Protection for Audio and Video equipment – protects your system from damaging surges, spikes, and even lightning.

P7V

- 7 outlets
- <330V let through voltage rating
- Coaxial cable protection

P8T3V

- 8 outlets
- <85v let through voltage rating
- Coaxial cable protection
- Telephone protection with 2-way splitter
- Plug activated safety shutters

PR11T3V5 and PR11T3V2

- 11 Outlets
- <40 let through voltage rating
- 2 sets of Coaxial cable protections
- Additional splitter for Coaxial line on PR11T3V5.
- Telephone protection with 2 way splitter
- Overload indicator
- Plug-activated safety shutters

J Type, H Type and C Type A/V solutions are available in both black and aluminum finishes.

Power Ready Notebook Case and Universal Power Adapter

Carefully designed for convenience, durability, and protection, APC's notebook cases are the ideal choice for any mobile professional or student. Each case is equipped to be used with APC's Universal Power Adapter. This versatile notebook power adapter can simultaneously charge a mobile phone, handheld PDA, and notebook from a single air, auto, or AC power outlet. APC's rugged notebook cases not only provide secure protection and easy access to your mobile devices, they also help keep them powered and charged when used with the Universal Power Adapter. (sold separately)

Power Ready Notebook Case

Whether making your daily commute or traveling the world on business, charge your mobile devices in style with any one of the APC Power Ready Notebook Case models.

TC900N

- Lightweight Nylon
- Mobile device pockets
- Organizer panel

TC1400BN

- Ballistic Nylon
- Universal Notebook Compartment
- Mobile device pockets
- Organizer panel
- File folder compartment
- Water bottle/ Umbrella pockets

TC1000BN

- Ballistic Nylon
- Universal Notebook Compartment
- Mobile device pockets
- Organizer panel
- Water bottle/ Umbrella pockets

TC1900P

- Ballistic Nylon
- Universal Notebook Compartment
- Mobile device pockets
- Organizer panel

TC1900RBN

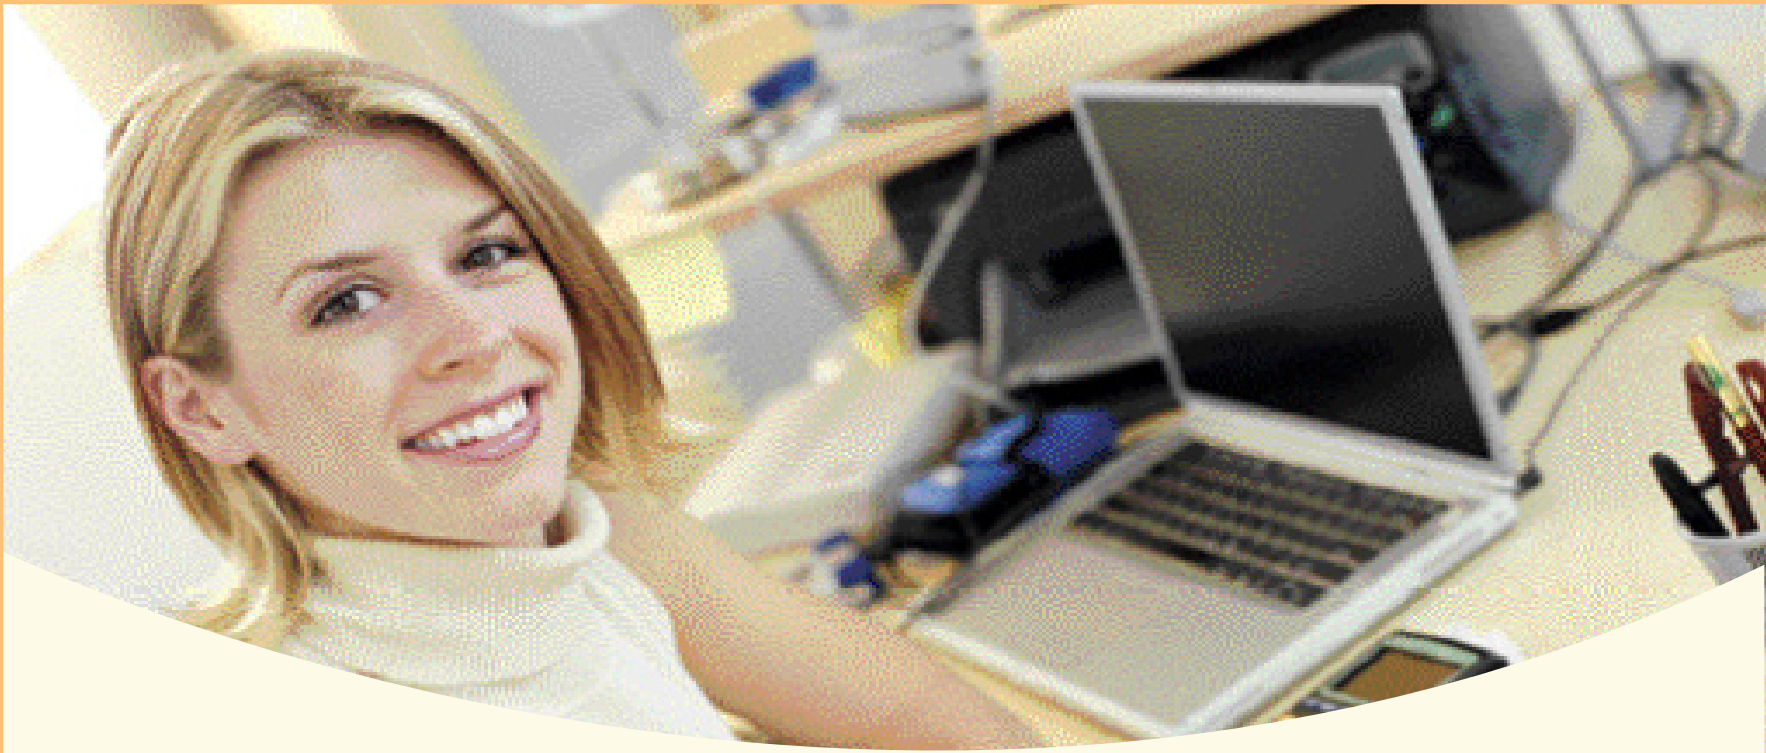
- Ballistic Nylon
- Universal Notebook Compartment
- Mobile device pockets
- Organizer panel
- Removable laptop case
- File folder compartment
- Water bottle/ Umbrella pockets

Universal Notebook Battery

- Compatible with most notebook computers (adapter tips included).
- Selectable output voltage
- Slim, lightweight design
- Weighs only 28 ounces
- Up to 8 hours of continuous runtime (actual battery runtime may vary by notebook computer model and power setting.)
- Recharges in less than 3.5 hours

Universal Power Adapter

- Charge & power your notebook, mobile phone and PDA simultaneously
- Any single air, auto, or AC power source charges all devices
- Compatible with leading brands of notebook computers



Mobile Accessories

Connectivity. Security. Availability. Such concepts are taken for granted in the office and even in some home environments, but are primary concerns for mobile electronic users. APC has responded to these customer needs with a growing line of mobile accessories.

Stay connected, but free to roam, with APC's Wireless Mobile Router and Cardbus. Ensure secure access to your computer (as well as utilize fast user switching on one Microsoft Windows XP PC) with APC's Biometric Password Manager.

Stay up and running while "on-the-go" with APC mobile accessories.

Biometric Password Managers

BIOPOD/BIOM

- Eliminate the need for password lists
- Control user access to your computer
- Register up to 20 different users
- Fast user switching for Microsoft Windows XP PCs

Wireless Mobile Router and Cardbus

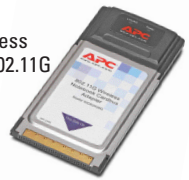
These wireless solutions are designed to provide a complete networking solution for both mobile and SOHO (Small Office/Home Office) environments. APC's new Wireless Mobile Router is small enough to fit in your Power Ready Notebook Case so you can go wireless anywhere. Complete your mobile office by charging your laptop, mobile phone, and PDA with APC's USB cables.

WMR1000G

- Compact, portable design
- USB or AC powered
- 128-bit WEP encryption with built-in firewall protection
- Compatible with APC Power Ready Notebook Case

WCB2000G

- APC Wireless Cardbus 802.11G



USB 2.0 Travel Hub

- USB 2.0 certified
- Compact, 4-port design

Universal Plug Adapters

INPA

- Separates and reconfigures for worldwide use
- Compatible with all plugs and outlets worldwide

International Plug Adapters

INPA3

- 3-prong attachment
- 4 international plug adapters
- Convenient carrying case
- Space-saving coiled cord

Notebook Batteries

Portable computer batteries for the leading brands of notebook computers. Please visit APC online at ***www.apc.com*** for a complete list of available products.

- All APC batteries are engineered to meet or exceed the OEM specifications of capacity, voltage, and cell life

USB Charging Cables

USB chargers and sync cables for PDAs and handhelds. Please visit APC online at ***www.apc.com*** for a complete list of available products.

- USB Chargers and Sync Cables for PDAs and Handhelds.
- Works with APC Power Ready Notebook Case

DC/AC Inverters and Mobile Surge Protectors

Why should you sacrifice the comforts of home while on the go? With APC's full line of mobile power solutions, you won't have to!

APC mobile products enable you to stay connected on the road or in the air, offer portable surge protection, and eliminate the need for additional backup batteries. Now you can power your notebooks, portable DVD and MP3 players, camcorders, and other portable devices anytime, anywhere.

DC/AC Inverters

DC to AC inverters allow you to run normal AC powered electronic devices anywhere you have DC power. That means you can charge your cell phone and notebook computer batteries and much more, anywhere on the road. One model can even be used on an airplane. All models feature low voltage disconnect to prevent your vehicle battery from draining and status indicator LEDs to alert you of the unit's power status.

PNoteAC150

- Auto/RV/Boat Compatible
- Low voltage alarm and shutdown
- LED status indicators

PNoteAC140

- Supplies 140 watts of continuous AC power
- 1 power outlet

PNoteAC350

- Supplies 350 watts of continuous AC power
- Dual power outlets for charging multiple devices
- Second power cord clips directly to battery for powering loads over 140 watts

Mobile Surge Protectors

Reliable power protection for notebook computers, fax, and answering machines. All APC Mobile Surge Protectors feature dataline, lightning, and surge protection as well as status indicator LEDs.

P1T

- Building wiring fault indicator
- Data-Line Protection
- Lightning and Surge Protection
- Phone Line Splitter
- Protection working indicator

PNoteProC6

- Catastrophic Event Protection
- Data-line Protection
- Lightning and Surge Protection
- Multivoltage Design
- Status Indicator LED's
- Surge Protection

PNoteProC8

- Catastrophic Event Protection
- Data-line Protection
- Lightning and Surge Protection
- Status Indicator LED's
- Surge Protection

Ergonomic Notebook Stands to Maximize your Comfort and Productivity

An increasing number of people are now using their notebook computer as their only computer, spending hours hunched over their keyboards in cramped, tiring positions. Personal comfort has taken a back seat to short term productivity. APC's Ergonomic Notebook Stands are designed to help alleviate some of the problems associated with extended notebook computer use like wrist, neck, and back strain. They also allow cooling air to circulate around your computer, optimizing performance and maximizing battery life.

Desktop Ergonomic Notebook Stands

APC's desktop notebook stands promote better ergonomic positioning of your notebook computer, maximizing comfort and reducing wrist, back, and neck strain. In addition, each stand allows cooling air to circulate around your computer, optimizing performance.

ECPN

- Cools your notebook
- Swivels 360 degrees
- May reduce wrist strain

ENS

- May reduce back and neck strain
- Cools your notebook
- Swivels 360 degrees
- Raises your notebook's LCD display

ENS-USB

- Built in 4-port USB 2.0 hub
- May reduce back and neck strain
- Cools your notebook
- Swivels 360 degrees
- Raises your notebook's LCD display

Mobile Notebook Stands

APC's mobile notebook stands are designed to promote better ergonomic positioning of your notebook computer, whether you're on the road or on the couch. The stands create a stable platform for easier typing, as well as a layer of protection from uncomfortable heat. You can take these lightweight, portable stands wherever you go.

EMCP

- Keeps both your lap and computer cooler
- Fold-out mouse pad
- Non-slip surfaces
- Retractable legs

ETCS

- Keeps both your lap and computer cooler
- Compact design unfolds into a full size stand
- Comfortable and convenient
- Non-slip surfaces
