

BassFX Product Overview

Product Description

BassFX is a floor multi-effects unit which puts formidable effects processing technology beneath the feet of musicians, at an incredibly low price. The BassFX is a full-featured DSP toolbox, designed to deliver incredible-sounding amplifier modeling, modulation effects, delays and reverbs—all in a compact, easy-to-use pedalboard for stage and studio applications.

BassFX is based on proven Alesis DSP technology, and comes loaded with a huge array of 24-bit amp models, effects, and reverb. It features 40 user editable programs, an auto chromatic tuner, and an expression pedal input.

The user can select from a wide variety of “factory preset” multi-effect programs, or edit them and create their own programs using the control surface. Two large foot pedals allow the user to scroll through the presets (factory and user), as well as bypass the effects or mute the output.

Features:

- _Durable, stage-friendly pedalboard design
- _40 programs, each a factory preset that can be edited by the user or restored to factory default
- _9 effects modules, each with multiple selectable effects, over 40 different effects, innumerable effects combinations
- _8 different signal routing options for re-ordering effect modules
- _9V DC or battery powered operation
- _External power option
- _Built in Auto-Chromatic Tuner
- _Simple user interface

BassFX

Specifications

DISTORTION

SS Clean, Tube Clean, Classice 1, Classic 2, Jazz tone, Fat Bottom, Studio, Grunge, Southern, Synth

CABINETS

Cab 1, Cab 2, Cab 3

PROCESSING

EQ, Comp/Limiter

EFFECTS

10 amplifier modeling algorithms, 30 effects, 9 module effects, 8 signal routing options. 80 preset/user programs. Wah, Phaser, Tremolo, Ring Mod, Cry, Step Filter, Slow, Attack, Auto Pan, Auto Phase, Flanger, Rotary, Chorus, Pitch, Doubling, Ping Pong, Tape Delay, Stereo Delay, Octaver, Echo, Hall, Room, Reverse, Plate, Decimate, Bit Reduce

CONTROL & CONNECTIONS

Top: Effect selector knob, value knob. Increment/decrement/bypass pedals. 2-character LED readout. Audio: 1 guitar in, 1 stereo line/headphone out (1/4" TRS). Other: Expression pedal in (1/4" TRS)

AUDIO SPECS

Internal DSP: 28-bit resolution. Input and output converters: 20-bit/31.25kHz. Frequency response: 20Hz-15kHz +/- 0.5dB. Signal-to-noise ratio: 80dB (A-weighted). Distortion: 0.06% THD+N. Input levels: -15dBV nominal, +3.5dBV maximum. Output level: -2dBV maximum

POWER

9V DC or 4 AA batteries

DIMENSIONS

(H x W x D) 7.5" x 5.5" x 1.6"
(190mm x 140mm x 61mm)

WEIGHT(without batteries)

15.7 oz. (445g)
