

WildFire Guitar Amplifiers Product Overview

WildFire 15

WildFire 30

WildFire 60

Product Description

The WildFire series is perfect for guitarists looking for a portable, flexible, great-sounding amplifier with built-in DSP for stage, practice, and recording. Built around Alesis world-class DSP technology, WildFire amps are capable of almost any guitar sound you can dream up. On stage, two WildFire amplifiers can be linked in stereo. With RCA inputs for a CD/MP3 player and headphone output, WildFire amps excel as practice tools, and their extensive range of tonalities makes them great for recording.

Positioning

Built around Alesis DSP technology, quality construction, and many innovative features, WildFire guitar amplifiers offer exceptional performance unmatched for the price.

Applications

The WildFire series is perfect for guitarists looking for a portable, flexible, great sounding amplifier with built-in DSP for stage, practice, and recording. On stage, two WildFire amplifiers can be linked in stereo. With RCA inputs for a CD/MP3 player and headphone output, WildFire amplifiers excel as practice tools, and their wide range of tonalities makes them great for recording.
