

BassFX

Product Description

BassFX is a floor multi-effects unit which puts formidable effects processing technology beneath the feet of musicians, at an incredibly low price. The BassFX is a full-featured DSP toolbox, designed to deliver incredible-sounding amplifier modeling, modulation effects, delays and reverbs—all in a compact, easy-to-use pedalboard for stage and studio applications.

BassFX is based on proven Alesis DSP technology, and comes loaded with a huge array of 24-bit amp models, effects, and reverb. It features 40 user editable programs, an auto chromatic tuner, and an expression pedal input.

The user can select from a wide variety of “factory preset” multi-effect programs, or edit them and create their own programs using the control surface. Two large foot pedals allow the user to scroll through the presets (factory and user), as well as bypass the effects or mute the output.

Key Features

- Durable, stage-friendly pedalboard design
- 40 programs, each a factory preset that can be edited by the user or restored to factory default
- 9 effects modules, each with multiple selectable effects, over 40 different effects, innumerable effects combinations
- 8 different signal routing options for re-ordering effect modules
- 9V DC or battery powered operation
- External power option
- Built in Auto-Chromatic Tuner
- Simple user interface

Dimensions & Weight

Dimensions: 7.5" x 5.5" x 1.6" (HxWxD)
(190mm x 140mm x 61mm)

Weight (without batteries)
15.7 oz. (445g)

BassFX**Specifications****DISTORTION**

SS Clean, Tube Clean, Classice 1, Classic 2, Jazz tone, Fat Bottom, Studio, Grunge, Southern, Synth

CABINETS

Cab 1, Cab 2, Cab 3

PROCESSING

EQ, Comp/Limiter

Specifications**EFFECTS**

10 amplifier modeling algorithms, 30 effects, 9 module effects, 8 signal routing options. 80 preset/user programs. Wah, Phaser, Tremolo, Ring Mod, Cry, Step Filter, Slow, Attack, Auto Pan, Auto Phase, Flanger, Rotary, Chorus, Pitch, Doubling, Ping Pong, Tape Delay, Stereo Delay, Octaver, Echo, Hall, Room, Reverse, Plate, Decimate, Bit Reduce

CONTROL & CONNECTIONS

Top: Effect selector knob, value knob. Increment/decrement/bypass pedals. 2-character LED readout. Audio: 1 guitar in, 1 stereo line/headphone out (1/4" TRS). Other: Expression pedal in (1/4" TRS)

CONTROL & CONNECTIONS

Top: Effect selector knob, value knob. Increment/decrement/bypass pedals. 2-character LED readout. Audio: 1 guitar in, 1 stereo line/headphone out (1/4" TRS). Other: Expression pedal in (1/4" TRS)

AUDIO SPECS

Internal DSP: 28-bit resolution. Input and output converters: 20-bit/31.25kHz. Frequency response: 20Hz-15kHz +/- 0.5dB. Signal-tonoise ratio: 80dB (A-weighted). Distortion: 0.06% THD+N. Input levels: -15dBV nominal, +3.5dBV maximum. Output level: -2dBV maximum

POWER

9V DC or 4 AA batteries
