

CD Twin LE

PORTABLE CD BACKUP AND COPY

The Alesis CD Twin LE is a portable, standalone audio and data CD duplicator. With the press of a button, the Twin LE makes CD copies, as well as compilations from multiple audio CDs, using both CD-R and CD-RW blank discs. The Twin LE supports Audio CD, Data CD, VCD, CD-i, CD+G, and Photo-CD.

With “One-Touch” CD-to-CD backup, the CD Twin LE makes data storage a snap, and with the easy-to-use interface, you can quickly make a custom CD mix with your favorites songs. Further adding to its ease of use, a 2x16 LCD display provides operational feedback to the user. “Raw copy” mode provides an exact one-to-one copy of your CD media.
