DM5 Pro Kit

PROFESSIONAL ELECTRONIC DRUM KIT WITH DM5 MODULE

The Alesis DM5 PRO Kit is a high–quality, low–cost solution for a complete electronic drum kit, with professional sound and familiar, comfortable playability. Featuring quick setup and easy portability, combined with the DM5's versatile sound selection, drummers can practice quietly with headphones or get as loud as they need on–stage. Considering its portability and power, the DM5 functions equally well for recording or performing.

The kit features a fully self–contained 5–piece electronic drum set with the DM5 sound module, six responsive playing pads, Snare, 3 toms, kick, ride, crash and hi–hat cymbals, tubular support rack, and all essential interconnection cables. Complete with a headphone output, the DM5 is the ideal percussion sound module and controller system that enables players of all skill levels to practice quietly or take to the stage with confidence. A versatile performer with a wide assortment of great drum and percussion sounds, the Alesis DM5 is perfect for performing drummers looking for a wealth of sounds in an easy to transport system. It's an invaluable tool for recording the most realistic drum/percussion performances and enables drummers to practice quietly — without disturbing others.

FEATURES

> Alesis professional DM5 module containing 540 sounds and 21 programmable drum sets recorded in 48kHz, true stereo, with ambient effects in a single rack space module

> Dynamic articulation™ feature allows drum sounds to change volume, tone, and pitch depending on how hard they're hit – just like real drums

> Ultra–fast trigger–to–MIDI converter with 12 trigger inputs, 5 programmable parameters for each trigger

> 5 Piece velocity sensitive pad drum kit (6 pads +3 cymbals) snare, 3 toms, kick, ride, crash and hi–hat cymbals.

> Professional quality hardware with real drum shells, firm grip hardware mounts and heavy–duty hi–hat control pedal

> All sounds recorded in true stereo at 48 kHz with ambient effects

> Random sample feature brings new life to static tracks by realistically varying the sound of the drum as it is played

> All necessary interconnect cables included
