

PicoVerb

Product Description

From our very first revolutionary effects processor Alesis has been a mainstay in project studio racks and live sound rigs.

Whether pumping out sweet reverb, lush chorus and flanging, versatile delay, pitch shifting, rotary speaker simulation, or other effects, Alesis processors give musicians and engineers ultra-affordable tools to make great mixes. The newest member of the family, the PicoVerb, has 16 of our best effects in a toocool-not-to-love box with 28-bit internal processing.

Key Features

- Ultra-affordable digital multieffects unit
- 16 presets including halls, rooms, plates, chorus, flange, delay, and rotary speaker
- Stereo 24-bit 1/4" inputs and outputs
- 28-bit internal processing, 48kHz sample rate
- Perfect for studio and sound reinforcement applications
- Super-compact 1/4-space rackmount

Specifications

CONTROL

Dedicated input, mix, and program select knobs. Power LED.

CONNECTIONS

Audio: 2 inputs, 2 outputs (1/4" TS).

AUDIO SPECS

Converters and resolution: 24-bit A/D/A, 28-bit internal processing, 48kHz internal sample rate. Frequency response: 20Hz–20kHz +0/–2dB. Distortion: 0.01% THD+N. Signal-tonoise ratio: 101dB (A-weighted). Maximum levels: input +7dBu, output +5dBu.

POWER

9V AC external transformer, UL and CSA approved

Dimensions & Weights

Dimensions: 1.5" x 4.25" x 5.3" (HxWxD)
(39mm x 108mm x 135mm), 1/4-U Rackmount

Weight: 1lbs (0.46kg)
