

USB-Mic Podcasting Kit

THE EASIEST WAY TO CREATE PODCASTS AND GET THEM HEARD ON THE WEB

Professional-sounding podcasting for your Mac or PC has never been simpler and more affordable than with Alesis' USB-Mic Podcasting Kit. Just plug the high-quality USB microphone into your computer (with no complicated drivers to install) and use the included Audacity software to record your voice, music and any other external sounds you wish to include for your final product. The USB-Mic provides 16 bit / 44.1-48kHz audio straight to your computer, and the Kit includes high-quality headphones for monitoring your session.

The USB-Mic Podcasting Kit comes with a free 30-day subscription to Alesis' custom podcast website, www.alesispodcast.com, to even make broadcasting and distributing your work a snap.
