The XR6 & XR8 are supplied in pairs complete with "U" brackets & are available in either black or white. Other accessories for the XR6 & XR8 are pole mount adaptors to fit a standard 35mm speaker stand & a universal mounting bracket to enable tilting etc of speakers when installed. The XR10, XR12 & XR15 are available in black, have standard 35mm stand boot fittings, fly points & all are supplied with foldback kits (as is the XR8). All models (excluding the XR6) also offer the fantastic innovation of a rotatable high end driver as standard.

XR Speaker Series

XR Series Speaker System

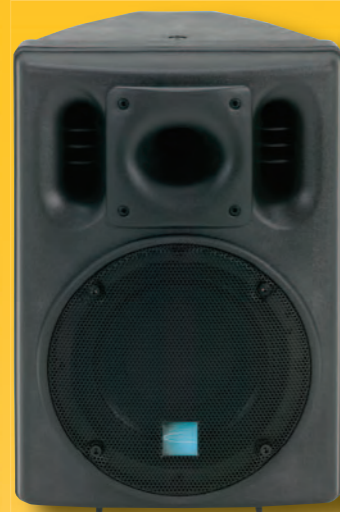

The AM Pro XR series speaker systems are a versatile, high performance range of two way injection molded enclosures. Featuring many innovative features such as rotatable high end drivers & fold back kits as standard across most of the range, the XR series are perfect for installations & live sound reinforcement. Whether it be Front of House or fold back applications, foreground music or background fill installations the XR series, which range from a 6" & ¾" compression driver all the way through to a 15" & 2" compression driver, have the right speaker for the application. The rotatable High end driver on the XR8, XR10, XR12 & XR15 make them ideally suited for fold back use or for mounting horizontally where low ceiling heights, or impeded sight lines are an issue in installations.

The AM Pro XR series of speaker enclosures represent a significant advancement in injection molded box design & offer a level of audio quality previously only found in speakers many times their price.

XR10

- Two way 10" woofer & 1.5" driver
- Highly durable Poly Propylene injection molded cabinet
- Heavy duty protective grill
- High frequency driver protection
- Pole mount or eye bolt installation points
- Rotatable 90 x 60 (H v V) dispersion horn for horizontal or vertical mounting

XR6

- Two way 6.5" woofer & 1" driver
- Highly durable Poly Propylene injection molded cabinet
- Heavy duty protective grill
- High frequency driver protection
- Supplied in pairs with "U" brackets
- Available in black or white

XR12

- Two way 12" woofer & 2" driver
- Highly durable Poly Propylene injection molded cabinet
- Heavy duty protective grill
- High frequency driver protection
- Pole mount or eye bolt installation points
- Rotatable 100 x 55 (H v V) dispersion horn for horizontal or vertical mounting

XR8

- Two way 8" woofer & 1.5" driver
- Highly durable Poly Propylene injection molded cabinet
- Heavy duty protective grill
- High frequency driver protection
- Supplied in pairs with "U" brackets
- Available in black or white
- Rotatable 90 x 60 (H v V) dispersion horn for horizontal or vertical mounting

XR15

- Two way 15" woofer & 2" driver
- Highly durable Poly Propylene injection molded cabinet
- Heavy duty protective grill
- High frequency driver protection
- Pole mount or eye bolt installation points
- Rotatable 100 x 55 (H v V) dispersion horn for horizontal or vertical mounting
