MH30 Music Horn

Description

The Australian Monitor Installation Series (AMIS) MH30 Music Horn combines the 'sound' benefits of a cone speaker with the 'throw' benefits of a horn. Additionally, the AMIS MH30 is IP46 rated and is therefore suitable for outdoor use.

With a flexible 'U' bracket, a compact size (283mm x 234mm x 256mm) IP46 rating and 100V line tappings of 30, 15 and 7.5 watts, the MH30 Music Horn offers contractors everything they need for a successful installation. Most common applications include school playgrounds, sporting fields, shopping centre car parks and anywhere that needs the long throw and durability of a horn speaker but with a smoother, more music friendly sound.

Specifications

Weight

 Components
 5" horn loaded cone driver

 Power Rating
 30 Watts

Selectable Power Tappings 30 Watts, 15 Watts, 7.5 Watts

Frequency Response 125Hz - 15kHz

Sensitivity 101dB

Dispersion $60^{\circ} \times 60^{\circ}$

Dimensions (mm) 234 H x 283 W x 256 D

Weather and Dust Rating IP46
