## AC<sub>ONE</sub> Audio Controller

### What It Is

▶ The AC<sub>ONE</sub> is a **complete audio controller**. It offers the well-conceived PowerMax crossover function along with the expanded capacity of EV's patented LPN (Low-Frequency Acceleration) filter for enhanced bass. You'll also find low-frequency system control and protection, as well as a three-way EQ.

### Who's Interested

- ▶ **DJs** who want huge bottom end.
- ▶ **Bands** who need more punch and performance from their system.
- ▶ **Acoustic acts** running a small portable system that needs enhancement.

### Key Selling Point

▶ The AC<sub>ONE</sub> allows you to **set up and dial in your system quick and easy**. On a price/performance basis, it is an incredible value.

### No-Bull Benefits

- ▶ Designed to pull **amazing bass impact** from your biamped system!
- ▶ **Dial in according to your taste**—ultimate boom or punch!
- ▶ **Three-way EQ control** allows you to deliver clean mids and brilliant highs as well!
- ▶ **Dial out sub-bass distortion** with variable low-cut filter!
- ▶ In a single RU, you get **state-of-the-art signal processing!**

### Frequently Asked Questions

- ▶ **Q:** "Is this thing more than a crossover?" **A:** Yes! This is an advanced design crossover that incorporates the PowerMax function and LPN filter, which pre-accelerates the audio signal.
- ▶ **Q:** "I'm moving more into pro-level gear. Are the connectors balanced?" **A:** Yes! This unit is fully balanced: ins, outs, and direct outs.
- ▶ **Q:** "I'm usually in a hurry once I get to the gig. Is this piece easy to set up?" **A:** Yes! Hookup, routing and operation are simple and intuitive.
- ▶ **Q:** "Can't I just buy a \$200 crossover and get the same results?" **A:** No way! Conventional crossovers cannot duplicate the performance of the AC<sub>ONE</sub>.

### Competition

- ▶ This is a unique product! Your AC<sub>ONE</sub> will outperform traditional-format crossovers, which do not have advanced signal processing or the LPN filter.
- ▶ The AC<sub>ONE</sub> is **not** like Aphex or BBE products you may be familiar with.

### Use With These Fine EV Products

- ▶ Sx80s (with Sx80SMs on 100BK stands), Sb121s, and Q44/Force amps
- ▶ Sx500s, Sb180s, and Q66/Eliminator amps
- ▶ Eliminators, Eliminator kW's, and the Q66/Eliminator and P2000 amps
- ▶ M-Series mixers
