EV PRODUCT WARRANTY AND REPAIR INFORMATION

LIMITED WARRANTY – Electro-Voice (EV) products, as offered in this Price List (the "products"), are guaranteed against malfunction due to defects in materials or workmanship for a specified period, as noted in the individual product-line statement(s) below, or in the individual product data sheet or owner's manual, beginning with the date of original purchase, by Telex Communications, Inc. (TELEX). If such malfunction occurs during the specified period, the product will be repaired or replaced (at our option) without charge. The product will be returned to the customer prepaid.

Exclusions and Limitations: This Limited Warranty does not apply to: (a) exterior finish or appearance; (b) certain specific items described in the individual product-line statement(s) below, or in the individual product data sheet or owner's manual; (c) malfunction resulting from use or operation of the product other than as specified in the product data sheet or owner's manual; (d) malfunction resulting from misuse or abuse of the product; or (e) malfunction occurring at any time after repairs have been made to the product by anyone other than TELEX or any of its authorized service representatives.

Obtaining Warranty Service: To obtain warranty service, a customer must deliver the product, prepaid, to TELEX or any of its authorized service representatives together with proof of purchase of the product in the form of a bill of sale or receipted invoice.

Incidental and Consequential Damages Excluded: Product repair or replacement and return to the customer are the only remedies provided to the customer. TELEX shall not be liable for any incidental or consequential damages including, without limitation, injury to persons or property or loss of use. Some states do not allow the exclusion or limitation of incidental or consequential damages so the above limitation or exclusion may not apply to you.

Other Rights: This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

TP-2	650095	TNC 50 ohm termination plug for UAD-2	\$12.00

Note: To eliminate the potential for security breach, the model RS-1 receiver will NOT be available for sale as an individual item. It will only be available as part of a system.

Every S.A.F.E. system is a matched set.

If an HS-1 Handheld or LS-1 Beltpack transmitter is added to a system after it originally ships, the RS-1 receiver must be shipped back to the factory in order to match it to the additional transmitter.

An additional cost, as reflected in above pricing, is incurred when transmitters are purchased separately. THEREFORE, it is strongly recommended to purchase the RS-1H/L Combo System upon initial order if planning future transmitter add on.

FREQUENCY ORDERING INFORMATION

GENERAL INFORMATION

The last few digits in the receiver and transmitter catalog numbers represent a frequency code (generally shown as one to three "X"s). Actual suffix code is determined by the frequency that is selected from the available frequency list.

TECHNICAL ASSISTANCE FOR FREQUENCY COORDINATION & ORDERING:

Call Telex Pro Audio Sales (800) 392-3497 for help with design, application information, frequency coordination, plus technical assistance especially in installations requiring multiple system operation. You may also fax your requests and requirements to (800) 323-0498 or the internet address is: pro.sound@telex.com. For proper frequency coordination, please include the location of the installation (city) and the make and operating frequency of any other wireless equipment that will be used on the same site.

CUSTOM FREQUENCY/RECRYSTAL OPTION:

Any desired frequency can be ordered within the operating limits of Telex wireless products. Delivery time is 3-4 weeks to allow for special handling. Price is in addition to the basic equipment price. See service centers or factory service department for Recrystal Options.

Note: Custom units cannot be canceled or returned once the order has been processed.
