April 14, 1998

DB98-09

To our valued University Sound customers:

The introduction of new products will be in the Telex/EVI Audio demo room N109/110 and at the Altec Lansing booth 109 on the show floor during the NSCA Expo in Las Vegas, April 27-29, 1998. New literature will be available at that time.

In recent years, you have witnessed many changes within the University Sound product line. Now, coupled with reorganization within the parent company, the decision has been made to fold the unique and viable University Sound products into the Altec Lansing product line. University Sound as a brand name will be phased out.

Effective April 27, 1998, as a University Sound Commercial Sound Products Dealer in good standing, the Altec branded products formerly branded University Sound will be made available to you automatically. Over the next few months, your Telex/EVI Audio representative will meet with you to discuss and execute with you the appropriate new Telex/EVI Audio Commercial Sound Products franchise.

The transition of University Sound branded products to the Altec Lansing product line is scheduled to take place during the next few months. During this time, some models will have the University Sound brand name on the unit, data sheets or cartons. Please bear with us during this development.

Thank you for your continued support. We look forward to supplying you with unique and exciting products that will meet your needs and provide solutions to your customers' requirements.

Sincerely yours,

A handwritten signature in cursive script that reads "Scott Schneider".

Scott Schneider
Commercial Sound
