Fax: 616 695 4743

Date: January 29, 1999

To: Warranty Service Centers

From: Service Department

We hope you have had a successful year and offer our best wishes for the new year. Currently, we are working on new price sheets for the Altec-Lansing and Electro-Voice products, but at this time, we do not have a completion date for this project. In the mean time, enclosed are three information sheets to help in ordering parts for Altec-Lansing speaker reconing. As many of you are aware, Altec speaker recone kits will be broken down into piece parts similar to the EV recone kits. Fixtures required are listed on one of the information sheets. We appreciate your patience during this transition period.

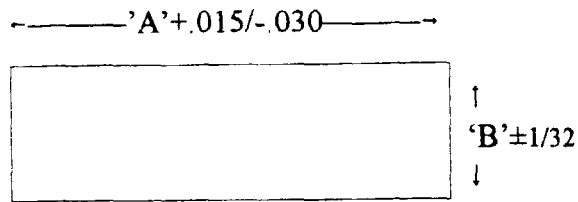

There are also several new Service Data Sheets enclosed, some are for older products and some for newer products. The Service Data Sheets are to be put into your blue service data books.
