PRODUCTS

The PSX1600 system combines the PSX1600 powered mixer and two Sx500+ speakers to provide all of the benefits that a world leader in sound reinforcement can provide. EV provides a complete matched system from input to output ensuring that the very best performance is achieved by the individual components.

PSX1600 powered mixer provides:

- **16 microphone inputs with 20 total line inputs.**
- **Dynamic Signal Processing for improved bass response and dynamics.**
- **Built-in limiters to prevent clipping and protect against damage from short circuits to ensure system integrity.**
- **Two separate, 18-bit stereo digital effects processors for quality high-end sound.**

PSX powered mixers are available in US only.

Sx500+ speakers provide:

- **400 watts continuous, 1600 watts short-term power handling.**
- **RMD (ring-mode decoupling) for outstanding vocal clarity and intelligibility.**
