

# CARDINAL™

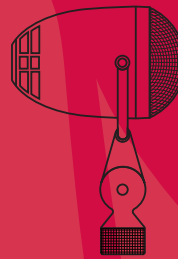

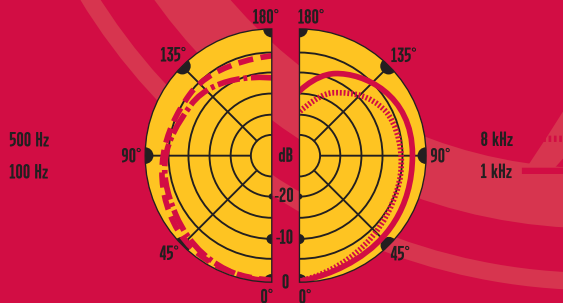

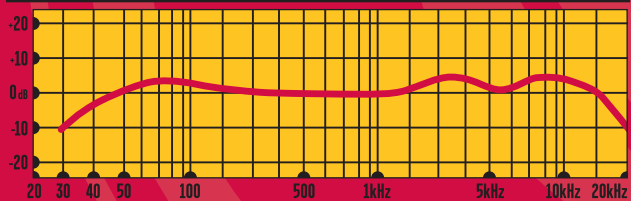

PROFESSIONAL CARDIOID CONDENSER MICROPHONE

**Classic Styling. Compelling Sound.**  
The Cardinal takes your music to new heights.

The EV/Blue Cardinal is a cardioid condenser microphone designed to capture the detail of both voice and instrument in live sound or studio applications. Employing Class A, discrete ultra-low noise amplifier circuitry, the Cardinal's smooth and detailed performance is sure to please even the most discerning artists and engineers.

- Pressure gradient cardioid condenser
- Class A discrete, ultra-low noise circuitry
- Unique double swivel-mounted design for ideal positioning
- Innovative design with real cherrywood finish
- Great for vocals or instruments
