

**CAN YOU DECREASE
TEACHER SICK DAYS
WHILE IMPROVING
STUDENT PERFORMANCE?**

ASK OUR CUSTOMERS.

**VOICE STRAIN =
TEACHER SICK DAYS**

With the Telex ClassMate® amplification system, teachers can speak in a normal tone of voice, and be clearly heard anywhere in the room – *significantly reducing the risk of vocal fatigue.* Plus the ClassMate connects to other classroom multimedia devices like CD and tape players, computers and more for concert quality sound from every application.

**ENGAGED STUDENTS =
BETTER PERFORMANCE**

We hear it everyday - schools need to improve test scores. Our customers tell us that a Sound Field system is one way to get there. Studies have shown that students pay more attention in class when an amplification system is being used – the teacher cuts through all the other distractions in the room. Which is especially important if there are students with disabilities in the room. And handheld student microphones also encourage classroom interaction and participation.
