**CLASSMATE**  
.....

**ClassMate® ES 2000 Infrared Systems**

Using infrared technology, the ClassMate® ES 2000 equips your entire school with sound field amplification without any interference between classrooms. Combine the infrared transmission with professional grade speakers from the world-renowned maker of EV speakers, and you have concert quality sound in every classroom.

**ClassMate® ES 2000:**

- Two-channels (2.3/2.8 MHz)
- Three auxiliary inputs
- Two auxiliary outputs allows for use with an assistive listening device
- Three-band equalizer
- 15 watt RMS per channel x 4
- Dedicated volume controls for all speakers and ins/outs
- Multiple speaker options to meet your specific needs
- Handheld microphone is an optional accessory available for purchase

**Choose One of These ClassMate® Speaker Options**

**ClassMate® Ceiling Speaker**

The six, four-inch speakers create a 360 degree speaker throw, creating an even dispersion of sound in the classroom. The Ceiling Speaker is 2 feet by 2 feet and 8 inches deep, making it very easy to mount in a drop ceiling.

**ClassMate® 4.2 Bookshelf Speakers**

Packed with power from EV® technology, the two ClassMate® 4.2 bookshelf speakers provide unparalleled sound quality and power. Each speaker has two four-inch speakers and a one-inch titanium tweeter— that's three speakers per speaker cavity! They can be bookshelf-mounted, wall-mounted, or ceiling-mounted with the included cast aluminum Strong-Arm Mount (S.A.M.).

**ClassMate® C4.2 Ceiling Can Speakers**

Four ClassMate® C4.2 Ceiling Can Speakers provide concert quality sound using EV® technology. One four-inch speaker and a one-inch tweeter, per can, provide excellent bandwidth in a stylish and unobtrusive speaker installation profile.
