EVID Series Surface-Mount Speakers

What Is It?

▶ The EVID™ Series is a complete selection of foreground/background surface-mount speakers with exceptional durability, style, and performance for restaurants, retail stores, shopping malls, and offices. They're perfect anywhere high-quality audio is needed!

Key Selling Point

▶ The Innovative Design (the *ID* in *EVID*) of this complete line of surface-mount background/foreground speakers provides **great acoustic performance and an attractive style** for the end user while being **easy to install and flexible** for the contractor.

No-Bull Benefits

- ▶ Dual woofers in all models provide outstanding clean bass response!
- ▶ Incredible installation flexibility allows for placement deep in corners, on walls, or from the ceiling without any additional hardware!
- ▶ Incredible power handling from 150 to 250 watts assures reliable operation, even at high volume levels!
- ▶ Line Array Enhanced Coverage Control for good balanced coverage throughout the listening space!
- ▶ Exclusive Strong-Arm Mount system is secure and simple to install!
- ▶ Full Bandwidth Overload Protection protects speakers from damage!
- ▶ Weather-resistant construction and paintable surface enable you to install anywhere and match surrounding décor!

Frequently Asked Questions

- ▶ **Q:** "Why dual woofers?" **A:** The dual-woofer concept provides several advantages, including smoother bass response, better coverage control, and improved power handling in the critical low frequencies.
- ▶ **Q:** "Are the wall mounts included?" **A:** Yes! All hardware is included for wall or ceiling mounting. The 12.1 subwoofer includes the wall bracket for mid-wall or corner mounting.

- ▶ **Q:** "What is the power handling?" **A:** The 3.2 is 150 watts, the 4.2 is 200 watts and the 6.2 is an incredible 250 watts. The 12.1 subwoofer is 175 watts per channel.
- ▶ **Q:** "What are they made of?" **A:** The full-range EVID shells are made from ABS, an extremely durable and dense material. The 12.1 sub is constructed from MDF and reinforced and assembled with steel fasteners and glue.
- ▶ **Q:** "Where can I mount the full-range speakers?" **A:** The unique design of the SAM mounting system allows for mounting in corners, on the wall or on the ceiling. The speakers can be mounted vertically or horizontally without any problem.
- ▶ **Q:** "How can I mount the 12.1 subwoofer?" **A:** The flexibility of the included subwoofer bracket allows it to be installed in a corner or midwall. The 12.1 can also be mounted in a suspended ceiling with the front baffle exposed.
- ▶ **Q:** "Can I paint them?" **A:** Yes! All EVID units, including the 12.1 subwoofer, are paintable to match any environment.

Competition

- ▶ The **EVID** Series is unique in that it offers style performance and aggressive pricing to match any model from JBL, Bose, Tannoy, TOA, and so on. Flexibility is unmatched, offering these advantages over other brands:
- ▶ **JBL:** More progressive styling than the JBL Control Series. Far more mounting configurations are possible without costly accessories.
- ▶ **Bose:** No need for speciality electronics on any EVID model. More progressive styling than Bose. Far more configurations than Bose.
- ▶ **Tannoy:** Many more surface mount configurations. Cleaner, more attractive styling. Easier mounting system.
- ▶ **TOA:** Many more options than TOA for mounting flexibility and sound coverage. Higher power handling. More coverage control than the H series.

Great "Go Withs"

- ▶ The EVID line is specially designed to work closely with the CPS amplifier series. The CPS-1, CPS-2, and CPS-2T offer ideal power platforms for the EVID Series.
