PRODUCTS

The Eliminator System combines the new Eliminator Amplifier and two Eliminator E speakers with accompanying Eliminator Sub E speakers to provide an exceptional high-level FOH system with maximum performance from the individual components – an outstanding value for bands and DJs.

The Eliminator speaker combination provides:

- **Enclosures made of Road-Wood™ (twice the strength and half the weight of particle board) for exceptional strength and ease of handling.**
- **Built-in stand mount for the Eliminator “top” to eliminate the need for additional speaker stands.**
- **PRO™ driver protection circuits ensure accidents won't ruin a performance.**

The Eliminator Amplifier provides:

- **Built-in state-of-the-art limiters for speaker protection.**
- **650 watts per channel.**
