

There is only one ceiling speaker exclusively designed to deliver clear,

focused sound to the listener in environments like this...

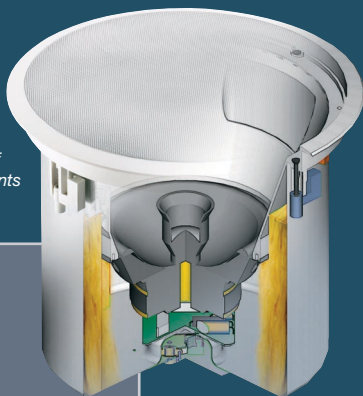

The **EVID C8.2HC** High Ceiling Speaker System

**EVID™**

**EVID C8.2 HC** — The Exclusive "Pattern Control" Solution

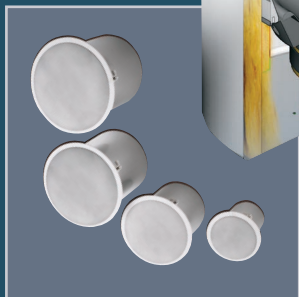

*The EVID C8.2HC is one of a family of EVID ceiling speaker systems for a wide variety of listening environments*

The EVID C8.2HC is ideal for high ceiling and reverberant "problem" listening spaces like school gymnasiums, airports, shopping centers, etc. Its exclusive wave-guide coupled 8" driver (patent applied for) provides for excellent intelligibility and definition. Great coverage control down to 1000 Hz. No other ceiling speaker system provides the combination of excellent pattern control, wide bandwidth, high power handling and compact design like the C8.2HC. Features a secure 5 point mounting system which makes installations fast and easy. Comes complete with mounting support ring and tile rails. No additional accessories needed for most installations.

**Hear it for yourself.**
