SoundMate[®] Assistive Listening System

What Is It?

- ▶ **Wireless personal listening systems** for the hard of hearing.

No-Bull Benefits

- ▶ **Operates in the 72-76MHz band** set aside by the FCC for this application.
- ▶ **Low-cost, single-channel receivers** make systems simple to use and maintain.
- ▶ **Sixteen possible channels** allow for up to five different programs in one place at the same time. Perfect for multi-language applications.
- ▶ **Wide variety of earbud and headset options** means satisfied users who can hear the program.

Frequently Asked Questions

- ▶ **Q:** "What is 'Assistive Listening?'" **A:** An Assistive Listening system delivers the audio portion of a presentation, play, service, or other event to a personal receiver that increases the volume for the user.
- ▶ **Q:** "How many receivers can be used with one transmitter?" **A:** The SoundMate system operates just like a small FM radio station, so there is no limit to the number of receivers which can be used with one transmitter.
- ▶ **Q:** "What kind of places need Assistive Listening?" **A:** All public spaces with fixed seating for more than 50 people must provide some form of Assistive Listening according to the American Disability Act (ADA) of 1992. That includes schools, theaters, and auditoriums. Churches are not considered public spaces, but many offer Assistive Listening for the comfort of their members with hearing loss.

**Competition**

- ▶ **SoundMate vs. Listen Technologies:** SoundMate offers simple, intuitive operation and superior sound quality at a lower system price.
- ▶ **SoundMate vs. Williams Sound:** SoundMate has six more possible channels and one-button operation, at a lower system price.

End User/Suggested Use

- ▶ Churches: Offers clear, intelligible audio for older and hard-of-hearing parishioners.
- ▶ Schools: Classrooms, Gyms, Theaters, Lecture Halls
- ▶ Theaters: Both live performance and film

Models

- ▶ **SM-1:** Fixed install system with ST-200 transmitter base, four SR-50 receivers, and earbuds.
- ▶ **SMP-1:** Portable system with PST-16 transmitter, SCHS-745 headworn microphone, six SR-50 Receivers, six HED-2 headphones, 14 AA batteries, and a deluxe carrying case (shown above).
