Sx100+ Portable and Install Loudspeaker System

What It Is

▶ The Sx100+ is a 200-watt, 12-inch two-way, 65° x 65° flying or stand-mounted trapezoidal polypropylene loudspeaker.

Who's Interested?

▶ Designed for portable applications, Sx100+s are also a leading choice of audio consultants and engineers.

Key Selling Point

▶ The Sx100+s offer incredible performance, flexibility and compact size. They have replaced larger, more expensive systems in stadiums, civic arenas, churches, and other install applications.

No-Bull Benefits

- ▶ Unbeatable combination of **sound quality, output, and compact size.**
- ▶ 65° x 65° pattern allows the Sx100+ **either horizontal or vertical orientation.**
- ▶ **Varipath™ horn geometry** directs energy to room corners for more even coverage
- ▶ **RMD™** means clean, accurate reproduction of voice and instruments

Frequently Asked Questions

- ▶ **Q:** "Can I get Sx100+s with transformers or in weather-resistant versions?" **A:** No! Sx100+s are built with 1/4-inch connectors. Look to Sx80s or Sx300s for these options. Sx100+s are available in white.
- ▶ **Q:** "Is the Sx100+ a 100-watt box?" **A:** No! The Sx300 is 300 watts. However, the Sx100+ is a full 200 watts. This is often overlooked.
- ▶ **Q:** "Many of the plastic boxes I'm familiar with are kind of boomy. How's yours?" **A:** We took great care in the design of the Sx100+. It's a masterpiece! It's made of structural foam that's stronger than wood and much lighter. This material has excellent

acoustic damping and is very tough. Internal ribs and bracing make it vibration resistant for maximum sonic impact.

Competition

▶ **JBL Control, Eon, Mackie, Peavey, Bose, Tannoy.** But you'll want to stick with a bestseller that's known for performance.

Use With These Fine EV Products

- ▶ 100BK stands and Sb121s.
- ▶ Q44/Force and CPS1 amps at about 2/3rds power
- ▶ EX23 or AC_{ONE}.
- ▶ PSX600 powered mixer.
- ▶ M-Series mixers.
- ▶ Mb100 (Forged eyebolt attachment kit)
- ▶ Mb200 (wall/ceiling U-bracket kit)
- ▶ Mb300 (horizontal array kit)
- ▶ F200 (monitor feet, pair)
- ▶ PDSx (padded cover)
- ▶ VPCSx (vinyl cover)
