

TOTAL AUDIO MANAGEMENT

Total Audio Management from the Klark Teknik Group and Stardraw.com Ltd represents the evolution of computer-controlled audio for professionals. Utilising a specially developed version of the unique Stardraw Audio shell as an operating environment, the Klark Teknik and Midas control software provides unrivalled flexibility and intuitive control of DN9848 and DN8000 units. Midas Heritage series software is currently in development.

A business card CD ROM is available, containing:

The all-new 'Stardraw for Klark Teknik'
operating shell software

The KT.exe remote control software for DN9848

The full DN9848 operators manual
(in PDF format)

The full Klark Teknik website

FREE

Also available as a free download from the Klark Teknik website at : www.klarktechnik.com/pages/set_software.html
