

CLEARONE™

CONFERENCE PHONE

PRODUCT OVERVIEW

The ClearOne Conference Phone from Gentner offers many superior audio features to enhance any business meeting.

Our exclusive VTM™ technology allows for 360 degree dynamic audio pickup, while the illuminating LEDs track the direction of the speaker's voice, letting them know they're being heard at the distant location.

ClearOne also uses full duplex operation, enabling free-flowing, natural conversations that allow more than one person to speak at the same time.

With ClearOne, even Internet communications software can be enhanced with full duplex audio. Simply connect it to a PC sound card.

Clearly, Gentner provides the superior technology and breakthrough sound performance for timesaving, effective business meetings. It's truly intelligent.
