

Educational Cameras

ClearOne Flexible Educational Cameras make it possible to easily capture and share full-color documents, 3-D objects and video with the entire class. Use the microscope adapter to display specimens and experiments in vivid detail. Attach to a VCR to record interactive activities. And connect to a computer to let students capture, edit and share content on their own.

FLEXCAM® ICAM

The affordable multipurpose FlexCam® iCam offers quick and easy document display and video-only presentations. The microscope coupler enables class-wide display of microscopic organisms. And the flexible gooseneck and swivel head enable you to position the FlexCam iCam easily and accurately.

910-171-101	FlexCam iCam	\$299.00
-------------	--------------	----------

STUDENTCAM®

The versatile, feature-rich StudentCam® lets teachers share detailed documents, images and video and use advanced lighting controls, including fluorescent and brightness adjustments. The StudentCam includes a microscope eyepiece adapter and couplers. A built-in microphone captures audio for presentations or videoconferencing.

910-171-120	StudentCam	\$699.00
-------------	------------	----------

FLEXCAM USB

The portable FlexCam USB is a microscope-compatible camera that easily connects to a PC or Macintosh®. Image capture software allows students to record experiments, create time-lapse photography and edit images and video. It also features a built-in microphone for audio recording.

910-171-100	FlexCam USB	\$349.00
-------------	-------------	----------

IDCAM™

The IDCam™ is ideal for capturing photo images used on student IDs, corporate security cards, membership cards and guest passes. The full-color, full-motion IDCam has a flexible 20" gooseneck and a 60° swivel head that allow it to be precisely positioned for proper head and shoulder framing at a distance of four to eight feet.

910-171-125	IDCam	\$699.00
-------------	-------	----------

FLEXCAM

The FlexCam is a multipurpose camera for displaying high-quality, full-color images and documents, as well as video on a TV or LCD projector. The integrated microphone includes a preamplifier to provide audio when the camera is used with a video codec or desktop conferencing system.

910-171-110	FlexCam	\$449.00
-------------	---------	----------

TEACHCAM®

The powerful TeachCam® offers superior-quality image display and enables clear audio and video sharing with a broad selection of cutting-edge features. Its built-in IllumaBase® light source and advanced lighting and color controls give teachers unprecedented viewing options with microscope slides, 35 mm slides, macro objects and more. IllumaBoxes hold objects on the base for illuminated 3-D display while IllumaSlides hold 35 mm slides. The microscope eyepiece adapter enables class-wide display of microscopic organisms, encouraging group participation.

910-171-150	TeachCam	\$999.00
-------------	----------	----------

FLEXCAM ICAM DIGITAL

The video-only FlexCam iCam Digital features both S-video and USB outputs for easy connection to a PC, Macintosh, television, VCR or LCD projector for sharing documents, lab specimens and video. It includes powerful imaging software to facilitate video and still image capture and editing. The FlexCam iCam is also microscope compatible.

910-171-102	FlexCam iCam Digital	\$449.00
