

Gentner's New Power Amp Offers Extreme Flexibility.

The solid, sound-enhancing features you get with the Gentner PA870:

- Drives both 8 Ohm and/or 70 Volt Speaker Systems
- 8 Separate Amplifier Channels
- Bridgeable Channels
- Presence, Bridge, and Clip Indicators for Each Channel on Both the Front and Rear Panels
- Only Two Rack Spaces
- Rear-panel Volume Control

You know Gentner for flawless sound quality. Now we are expanding our line to offer a more **complete audio package**. Introducing our new power amplifier—the PA870.

Flexible and versatile. The new Gentner PA870 drives **both 8 ohm and/or 70 volt** speaker systems giving you adaptability like no other power amplifier available. It delivers 25 watts of power to each of its 8 channels, which are **bridgeable** when more power is needed. And, since it requires only two rack spaces, it conveniently fits in any small space that requires multiple rooms or zones of amplification.

With the **respected engineering** and **unmistakable sound** that is Gentner, there's no need to look for a power amplifier anywhere else.

To learn more about our new Gentner PA870 Amplifier and how it can enhance your audio system, call us at 1.800.934.9212 or visit us on the Web at www.gentner.com.
