

# MAXAttach™

Ultimate Room Coverage and Flexibility

MAXAttach  
Guide

## Unique Benefits Only ClearOne Provides

### EXPANSION FLEXIBILITY

#### Cover Bigger Rooms With 2, 3 and 4 Phone Configurations or Detach and Use In Multiple Rooms

MAXAttach expansion capability allows users to link up to four fully functional phones together as one system for larger rooms. Each MAX® speakerphone has a fully functional dial pad allowing anyone around the table to turn the system on, off, adjust volume, mute, un-mute or dial. Whatever you do on one system controls the others.

Plus with a spare power supply base unit (part number 910-158-048) you can separate MAXAttach into individual systems for smaller rooms.

MAX® EX  
910-158-015

MAXAttach™  
(MAX EX + MAX Exp. Kit)  
910-158-055

MAXAttach + 1 Exp. Kit  
910-158-055-01

MAXAttach + 2 Exp. Kits  
910-158-055-02

**MAX EX Base Kit**  
Enables usage in separate rooms. Includes base unit and 25' cable.  
910-158-048

### BETTER MICROPHONE COVERAGE

#### Don't Need To Shout To Be Heard by the Far End

Each MAX speakerphone has 3 built in microphones for true 360° coverage. Our expansion capability allows users to link multiple speakerphones (MAXAttach) together as one system for larger rooms to provide better microphone coverage.

Linking multiple systems together that each have 3 built in microphones with true 360° coverage is better than just adding a single microphone. This allows users to speak naturally and not have to shout to be heard by the far end of the call.

### BETTER LOUDSPEAKER COVERAGE

#### Hear the Far End Better

Each MAX speakerphone has a built in loudspeaker. Our expansion capability allows users to link multiple speakerphones (MAXAttach) together as one system for larger rooms to fill the room with more sound.

On a conference call users have lost their sense of site. When we loose one of our senses we overcompensate with another and during an audio conference call we overcompensate by yelling at the phone. With MAXAttach users can "relax and focus on what they are saying, not how they are saying it". The way we do that is to fill the room with more sound.
