Ceiling DocCam RS232

On/Off Codes

Description: This document describes the added Ceiling DocCam On/Off codes. The Ceiling DocCam must be labeled Rev 2.3 or higher for these codes to work.

Code:

All Commands must be followed by an ASCI return character
RS232: 4800bps, Even parity, 8bit data, 1stop bit
Please check the manual for complete RS232 information.

Ceiling DocCam ON   :WFCVL01

Ceiling DocCam OFF   :WFCVL02

NOTE: This code only turns off the Camera functions. The main board still retains power enabling the On command from both RS232 and IR
