USB Adapter for PAL only cameras

This document shows how to install the PAL only drivers for the USB adapter (the model with the green case) after the Generic drivers have been installed. If you have not installed the drivers from the VideoLabs disk, start with step 8. These instructions are written for Windows XP. If you are using another Windows operating system, the procedure is the same; however, the screen names and button layout may differ.

To install PAL only drivers

- 1. Extract the files from USBAdapterWinPAL.zip to a new directory and take note of that location.
- 2. Right-click the My Computer desktop icon.
- 3. Select Properties to open the System Properties window.
- 4. Click the **Hardware** tab and then click **Device Manger** to open the Device Manager window.

System Properties window, Hardware tab

Device Manager window with USB driver selected

5.	In the Device Manager window, expand the
	Imaging Devices category by clicking the plus (+)
	sign.

- 6. Right-click **HU-501 USB Video Capture** and then select **Update Driver**.
- The Hardware Update wizard opens. Select Install from a list or specific location (Advanced) and then click Next.

Welcome to the Hardware Update Wizard
This wizard helps you install software for:
HU-501 USB Video Capture
If your hardware came with an installation CD or floppy disk, insert it now.
What do you want the wizard to do?
O Install the software automatically (Recommended)
 Install from a list or specific location [Advanced]
Click Next to continue.
Pick Next > Cancel
