

Ceiling DocCam IR Remote Compatibility

There are five IR remote configurations for the Ceiling DocCam: Basic, Polycom, PictureTel, ClearOne V-There and Tandberg. The part numbers for each configuration in NTSC or PAL format are listed below.

- **910-171-060 Basic Ceiling DocCam** – Compatible only with the supplied IR remote
- **910-171-061 Polycom IR Ceiling DocCam** – Compatible only with the Polycom IR remote
- **910-171-062 PictureTel IR Ceiling DocCam** – Compatible only with the PictureTel IR remote for the Venue and Concord series (it will NOT work with the Ipower or Swiftsite series)
- **910-171-064 ClearOne V-There IR Ceiling DocCam** – Compatible only with the ClearOne V-There IR remote
- **910-171-065 Tandberg IR Ceiling DocCam** – Compatible only with the Tandberg IR remote

PAL

- **910-171-060-PAL Basic Ceiling DocCam** – Compatible only with the supplied IR remote
- **910-171-061-PAL Polycom IR Ceiling DocCam** – Compatible only with the Polycom IR remote
- **910-171-062-PAL PictureTel IR Ceiling DocCam** – Compatible only with the PictureTel IR remote for the Venue and Concord series (it will NOT work with the Ipower or Swiftsite series)
- **910-171-063-PAL-AUS Basic Ceiling DocCam with UK Adapter** – Compatible only with the supplied IR remote
- **910-171-064-PAL ClearOne V-There IR Ceiling DocCam** – Compatible only with the ClearOne V-There IR remote
- **910-171-065-PAL Tandberg Ceiling DocCam** - Compatible only with the Tandberg IR remote

Note: Please note that each of these configurations work ONLY with the specified IR remote. The camera cannot be reconfigured at a customer site. The only version that includes a remote is the Basic Ceiling DocCam. If you do not receive a remote with your shipment, it means that your Ceiling DocCam has been configured to work with another manufacturer's remote and that it will not work with the ClearOne (VideoLabs) IR remote.
