- **910-171-010-PAL** **DocCam Pro AV document camera with standard IR remote** – Compatible only with the supplied IR remote
- **910-171-006-PAL** **DocCam Pro AV document camera for use with Polycom ViewStation IR remote** – Compatible only with the Polycom ViewStation IR remote
- **910-171-007-PAL** **DocCam Pro AV document camera for use with Polycom iPower 600 and 900 IR remotes** – Compatible only with the Polycom iPower 600 and 900 IR remotes
- **910-171-008-PAL** **DocCam Pro AV document camera for use with V-There IR remote** – Compatible only with the ClearOne V-There IR remote
- **910-171-009-PAL** **DocCam Pro AV document camera for use with Tandberg IR remote** – Compatible only with the Tandberg IR remote

### DocCam Pro VC PAL

- **910-171-011-PAL** **DocCam Pro VC document camera with standard IR remote control** - Compatible only with the supplied IR remote

- **910-171-012-PAL DocCam Pro VC document camera for use with Polycom iPower 600 and 900 IR remotes** - Compatible only with the Polycom iPower 600 and 900 IR remotes
- **910-171-013-PAL DocCam Pro VC document camera for use with Polycom ViewStation IR remote** - Compatible only with the Polycom ViewStation IR remote
- **910-171-014-PAL DocCam Pro VC document camera for use with V-There IR remote** - Compatible only with the ClearOne V-There IR remote
- **910-171-015-PAL DocCam Pro VC document camera for use with Tandberg IR remote** - Compatible only with the Tandberg IR remote

**Note:** Please note that each of these configurations work ONLY with the specified IR remote. The camera cannot be reconfigured at a customer site. The only version that includes a remote is the Basic DocCam Pro AV or VC. If you do not receive a remote with your shipment, it means that your DocCam Pro has been configured to work with another manufacturer's remote and that it will not work with the ClearOne (VideoLabs) IR remote.
