USB Adapter Installation and Operation Manual

ClearOne Part No. 800-171-318 January 2003 (Rev. 2.1)

© 2003 ClearOne Communications, Inc., formerly VideoLabs. All rights reserved. No part of this document may be reproduced in any form or by any means without written permission from ClearOne. Printed in the United States of America. ClearOne reserves specific privileges. Information in this document is subject to change without notice.

Introduction

The USB Adapter, from ClearOne, formerly VideoLabs, is the ultimate USB video connector for cameras or other video devices with built-in video and audio ports. The USB Adapter provides a convenient, easy way to capture video, audio, or still images through your computer.

The USB Adapter features a video pass-through connector that allows you to output your video capture to a TV or VCR. This makes it possible to simultaneously view or record your video image on a TV or VCR and capture it on the computer.

Professional services

If you need any additional information on how to install, set up, or operate your USB Adapter, please contact us. We welcome and encourage your comments so we can continue to improve our products and serve your needs.

Product registration

Please register your USB Adapter using the online registration form in the Product section at www.clearone.com. We are better able to provide technical assistance when your product is properly registered. Registration information is also used to notify you of upgrades and new product information.

Product returns

All product returns require a return authorization (RA) number. Please contact ClearOne Technical Support before attempting to return your product.

Product Overview

Unpacking

Unpack USB Adapter, manual, and the USB Software and Driver Disk. Ensure you have received all parts shown below.

 ClearOne is not responsible for product damage incurred during shipment. You must make claims directly with the carrier. Inspect your shipment carefully for obvious signs of damage. If the shipment appears damaged, retain the original boxes and packing material for inspection by the carrier. Contact your carrier immediately.

Figure 1. USB Adapter and accessories.

Connectors

The USB Adapter features an attached USB cable and four connectors: audio, composite video, S-video, and video pass-through. See diagram on page 3.

Figure 2. Connectors on USB Adapter

System requirements

USB Adapter

- Pentium II 350 MHz or higher, PowerPC Mac or higher
- Windows 98, 98 SE, 2000, ME, XP or Mac OS 8.6 or 9.0
- 64MB RAM
- 1 free USB port

PhotoStudio 5 (PhotoStudio 4 for Mac)

- Pentium II PC or higher, PowerPC Mac or higher
- 64MB RAM
- 50MB free hard drive space
- 16-bit (or higher) color display
- CD-ROM drive

VideoImpression 1.6

- Pentium II PC or higher, PowerPC Mac or higher
- 64MB RAM
- 200MB free hard disk space
- 16-bit (or higher) color display
- Apple Quick Time recommended
- CD-ROM drive

Getting Started

Installing USB drivers

Before you can use your USB Adapter, you must install the proper USB drivers on your PC or Mac. The drivers are found on the USB Software and Driver Disk that came with your USB Adapter.

To install USB drivers on a PC

1. Insert the USB Software and Driver Disk into the CD-ROM drive.
2. From the Windows Start menu, select **Run**.

Figure 3. Windows Run utility

3. Click **Browse** and locate the driver CD. The CD is labeled ArcSoft.
4. Select the CD and click **Open**.
5. Select the USB Adapter 2.0 folder and click **Open**.

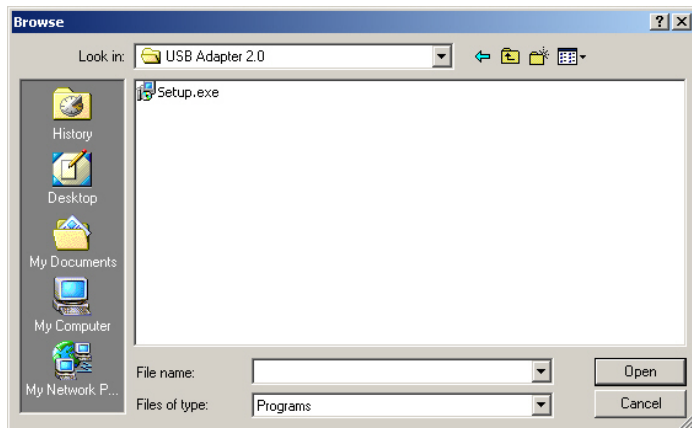

Figure 4. Selecting Setup.exe

6. Select the **Setup.exe** file and click **Open**.

7. The file path is now displayed in the Run utility. Click **OK** to run Setup.exe.
8. The InstallShield Wizard will guide you through the driver installation. Follow the onscreen prompts.

Figure 5. InstallShield Wizard for USB Adapter

9. Click **Finish**, then plug in the USB Adapter. Windows will automatically locate and load the drivers. You can now begin using your USB Adapter.

Figure 6. Driver installation is complete

To install USB drivers on a Mac

 The USB Adapter is compatible with Mac OS 8.6 through 9.2.2.

1. Insert the Software and USB Driver Disk into the CD-ROM drive.
2. Double-click the ArcSoft icon to open the CD content window.

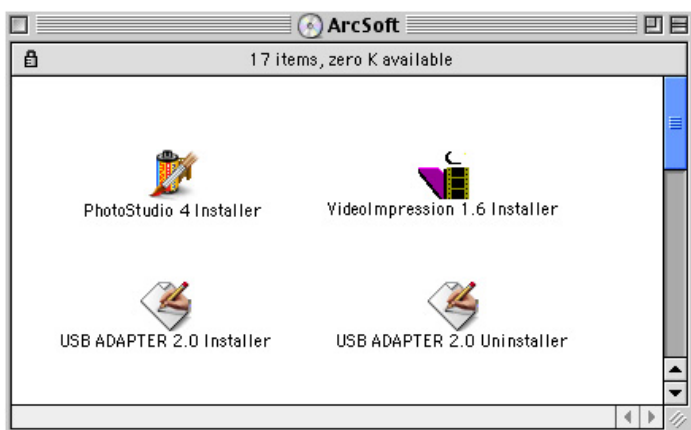

Figure 7. Contents of USB Software and Driver Disk

3. Double-click the USB Adapter 2.0 Installer icon.
4. Click **Install**. When the drivers are installed, restart the computer.
5. Plug the USB Adapter into a USB port on the Mac.

Connecting the USB Adapter

To a video source

Use either a composite video cable or an S-video cable to connect the USB Adapter to the video source such as a ClearOne camera or a VCR.

To a video monitor

Use a composite video cable to connect from the video pass-through jack on the USB Adapter to the composite (RCA) jack on the TV, monitor, or other display device. This connection allows you to view the video as it is recording.

 To use the video pass-through connection, the connection from video source to the USB Adapter must be composite. If you are using an S-video connection, you will not be able to use the video pass-through option.

To an audio source

Use the stereo audio in jack to route an audio signal to the computer.

Figure 8. USB Adapter connection diagram

ArcSoft Software

The USB Software and Driver Disk includes two programs for video capture and editing: VideoImpression 1.6 and PhotoStudio 5. Please note that the VideoImpression 1.6 version on this CD is manufactured specifically for ClearOne products and does not support still captures. If you want to take still captures, use PhotoStudio. Both products have built-in help systems to help you make the most of your video and still captures.

Installation

To install on a Windows OS

1. Right-click the ArcSoft CD icon and select **Explore**.
2. Double-click **Setup.exe**.

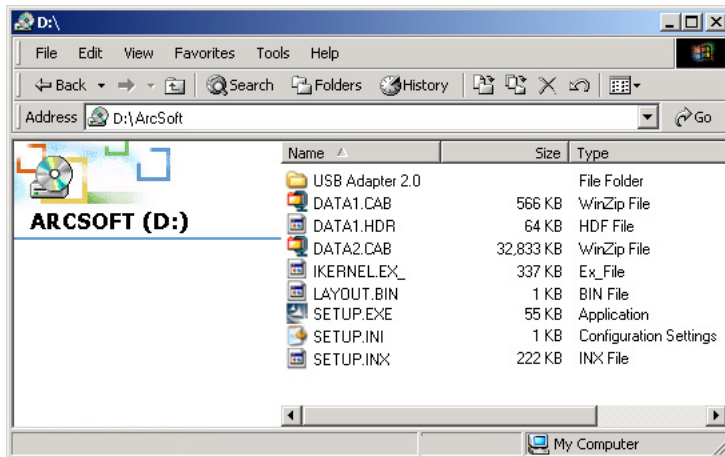

Figure 9. Installing the ArcSoft programs

3. Follow the onscreen prompts. Both programs are installed through the same installation wizard.
4. Restart your computer.

To install on a Mac OS

1. Double-click the Video Impression 1.6 installer (see Figure 7) and follow the onscreen prompts.
2. When Video Impression is finished installing, double-click the PhotoStudio installer and follow the onscreen prompts.
3. Restart your computer.

Selecting the correct video source

The default video source for Video Impressions and PhotoStudio is composite. If you use an S-video connection, the program may not respond quickly or function properly until you change the video source setting to S-video.

To change the video source

1. Launch Video Impression 1.6.

Figure 10. Video Impression start screen

2. Click **new** and then click the **capture** icon on the next screen.
3. On the video capture screen (see Figure 12) click on the **source** icon. This will open the Video Source window (see Figure 13).

It may take up to one minute to open the window.

Figure 11.
Source icon

4. Change the video input to **S-video**.
5. Click **OK** to close the window. The image should now appear on the video capture screen.

 You cannot change the video source in PhotoStudio. However, the changes made in Video Impressions will be applied to PhotoStudio.

Figure 12. Video Capture screen

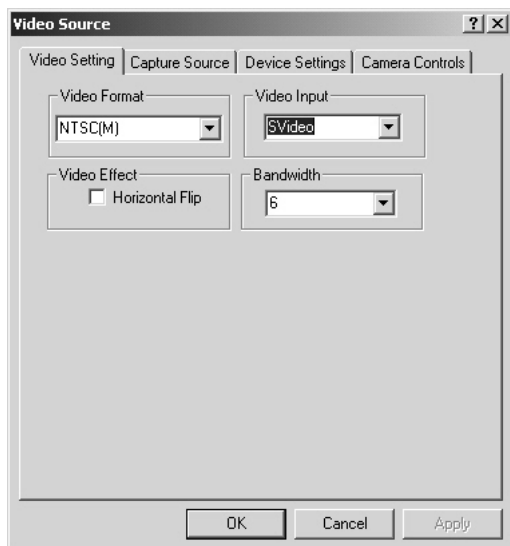

Figure 13. Video Source window

Selecting NTSC or PAL video

The default USB Adapter setting is NTSC.

To select PAL video

1. Launch Video Impression 1.6 (see Figure 10).
2. Click **new** and then click the **capture** icon on the next screen.
3. On the video capture screen, click the **source** icon (see Figures 11 and 12). This will open a window with several tabs (see Figure 13).
4. From the Video Format list, select the appropriate PAL setting.
5. Click **OK** to close the window and return to the Video Capture screen.

Appendix

Troubleshooting

I've installed the USB Adapter, why doesn't the picture appear?

Connect the USB Adapter to the computer using the attached USB cable. Check to see that the video source (S-video or composite) is set correctly (see page 9). Ensure that the USB port is enabled in your computer's BIOS and in the Windows Control Panel/System Device Manager.

How do I know the driver for the USB Adapter has been properly installed?

Right-click the My Computer icon on the desktop. Choose Properties. Click the Hardware tab, then Device Manager. Click the plus sign next to the icon labeled Imaging. Find S19 USB Video Capture. If the Imaging folder is missing, you need to reinstall the drivers.

How do I capture audio?

Audio can be captured through the audio input jack using Video Impression.

What do I need for videoconferencing and video mail?

You'll need a video camera, an audio source (microphone, CD player, etc.), headphones or speakers, and videoconferencing software (e.g., Microsoft NetMeeting®).

Why can't I install the USB Adapter with Windows 95?

Windows 95 does not support the USB Adapter. You will need to upgrade to Windows 98 (or a later version) to use the USB Adapter.

Can I easily switch between multiple USB video capture devices on Mac OS?

No. To switch between devices, you must uninstall the driver(s) for one device and install the driver(s) for the other.

What if the USB Adapter doesn't work after installing the drivers on Mac OS?

Make sure the USB Adapter is properly connected to the computer. Check to see that the video source (S-video or composite) is set correctly. Ensure that there are no other USB video capture devices connected.

Specifications

| | |
|-------------------------|---|
| PC Interface: | USB Rev. 1.1 |
| Video Standard: | NTSC, PAL, SECAM |
| Signal Input: | Composite or S-video |
| Audio Input: | Stereo Audio |
| Video Pass-Through: | Composite video on RCA connector only |
| Capture Rate: | 30fps at CIF (320x240), 10–15fps at VGA (640x480) |
| Frame Size: | QCIF (160x120) to VGA (640x480) |
| Software Interface: | Video for Windows, TWAIN interface, WDM driver |
| File Formats Supported: | BMP, AVI, PCX, TIF, JPG, TAG |
| Data Format: | YUV 4–2–2, YUV 4–2–0, RGB |
| OS Support: | MS Windows 98, 98 SE, 2000, ME, XP Mac OS 8.6, 9.0 |
| Power: | Provided by USB port |
| Operating Temperature: | 0°C to 50°C/32°F to 122°F (non-condensing) |
| Storage Temperature: | –10°C to 60°C/14°F to 140°F (non-condensing) |

Warranty

ClearOne Communications, Inc. (Manufacturer) warrants that this product is free of defects in both materials and workmanship. Should any part of this product be defective, the Manufacturer agrees, at its option, to:

- A. Repair or replace any defective part free of charge (except transportation charges) for a period of one year from the date the end user is invoiced for the product, provided the end user returns the product to ClearOne Communications or an authorized ClearOne dealer according to the Product Return and Repair Policy set forth below;
- B. Furnish replacement for any defective parts in the product for a period of one year from the date the end user is invoiced for the product, provided the end user provides proof of purchase that demonstrates that the product is still within the warranty period. Replacement parts shall be furnished without charge, except labor and transportation.

This warranty excludes assembled products not manufactured by the Manufacturer whether or not they are incorporated in a Manufacturer product or sold under a Manufacturer part or model number.

Product Return and Repair Policy

Return to Manufacturer

- a. An RA (return authorization) number must be issued to the end user from ClearOne Technical Support.
- b. The end user must return the product to ClearOne with proof of purchase (showing purchase date) for a warranty claim, and display the RA number on the outside of the shipping package.

THIS WARRANTY IS VOID IF:

- A. The product has been damaged by negligence, accident, act of God, or mishandling, or has not been operated in accordance with the procedures described in the operating and technical instructions; or,
- B. The product has been altered or repaired by other than the Manufacturer or an authorized service representative of the Manufacturer; or,
- C. Adaptations or accessories other than those manufactured or provided by the Manufacturer have been made or attached to the product which, in the determination of the Manufacturer, shall have affected the performance, safety or reliability of the product; or,
- D. The product's original serial number has been modified or removed.

NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING WARRANTIES OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR USE, APPLIES TO THE PRODUCT. MANUFACTURER'S MAXIMUM LIABILITY HEREUNDER SHALL BE THE AMOUNT PAID BY THE END USER FOR THE PRODUCT. No person or entity authorized to

assume any obligation or other liability in connection with the products. No action, regardless of form, arising out of or relating to the product or this warranty, may be brought by end user more than one (1) year after the cause of action has accrued.

Manufacturer shall not be liable for punitive, consequential, or incidental damages, expenses, or loss of revenue or property, inconvenience, or interruption in operation experienced by the end user due to a malfunction in the purchased product. No warranty service performed on any product shall extend the applicable warranty period.

In case of unsatisfactory operation, the end user shall promptly notify the Manufacturer at the address set forth below in writing, giving full particulars as to the defects or unsatisfactory operation. Upon receipt of such notice, the Manufacturer will give instructions respecting the shipment of the product, or such other matters as it elects to honor this warranty as above provided. This warranty does not cover damage to the product during shipping and the Manufacturer assumes no responsibility for such damage. All shipping costs shall be paid by the customer.

This warranty extends only to the original end user and is not assignable or transferable. This warranty is governed by the laws of the State of Utah, without regard to the conflicts of interests provisions thereof.

Compliance

FCC Part 15 Compliance

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by ClearOne Communications, Inc. could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Safety Information

- ! CAUTION: Users should not attempt to make such connections themselves, but should contact the appropriate electrical inspection authority, or electrician, as appropriate.

European Compliance

This equipment has been approved in accordance with Council Directive 1999/5/EC "Radio Equipment and Telecommunications Equipment."

 Conformity of the equipment with the guidelines below is attested by the CE mark.

EC Declaration of Conformity

| | |
|--------------------------------------|---|
| Application of Council Directive(s): | 1999/5/EC Radio equipment and Telecommunications Terminal Equipment (R&TTE) Directive |
| Manufacturer's Name: | ClearOne Communications, formerly VideoLabs |
| Manufacturer's Address: | 1825 West Research Way Salt Lake City, Utah 84119 U.S.A. |
| Model No.: | USB Adapter (S-912) |

Standard(s) to which Conformity is declared:

89/336/EEC "Electromagnetic Compatibility (EMC) Directive"

| | |
