The company that brought you *Perfect Audio*
is proud to introduce . . .

Audio Perfect[®] Video!

Gentner's new APV200 videoconferencing system delivers television-quality video and lifelike audio. It is standards based and connects directly to any size TV, LCD projector, flat screen, PC or laptop computer.

When combined with an Audio Perfect system, the APV200 can support up to 64 microphones and multiple cameras—ample coverage for any size room.

Features Include:

- Standards based H.320
- 384 Kbps – 30 frames per second
- Built-in NT-1's
- Full remote control operation
- One call for all your conferencing needs
