**Give everyone the best seat
at the table. Go with ClearOne
MAXAttach conferencing system.**

As a preferred provider of ClearOne MAX products, we're your source for real teleconferencing flexibility. For example, we have the MAXAttach, which allows you to daisy-chain up to four phones together. And MAXAttach Wireless allows you to wirelessly daisy-chain up to two phones off its base unit. That means you can easily turn even the most intimidating conference table into a teleconferencing wonderland.
