

RAV Wired Controller

A popular wired accessory for the RAV premium conferencing system. The wired controller is ideal for those who prefer a wired solution due to battery concerns, wireless security issues or potential theft problems.

WIRED CONTROLLER FOR THE RAV PLATFORM

RAV WIRED CONTROLLER APPLICATIONS

- Board Rooms
- Conference Rooms
- Executive Offices
- Use with RAV 600 and RAV 900
Premium Conferencing Systems

RAV WIRED CONTROLLER ADVANTAGES

- Ease of Use**
 - + Eliminates the need for batteries because it draws power from the audio mixer
 - + Plug and Play setup: an RJ-11 to DB-9 adapter easily connects to RAV mixer; no programming required
 - + Dial pad resembles a standard phone for easy operation
 - + Centralizes operational functionality through a single tabletop controller
 - + 40' cable with RJ-11 connector makes routing easy through tables and cable trays
- Full Functionality**
 - + Telephone-style dial pad
 - + Room audio control buttons
 - + 3-line LCD
- Solves Security Issues**
 - + Eliminates wireless security concerns
 - + Wired design reduces the potential for theft
