

G-Ware, XAP, and PSR Compatibility

Description

As Gentner’s audio conferencing and sound reinforcement products are enhanced, an upgrade of the firmware or the controlling software may be necessary to be compatible with the latest features and functions. The chart below shows which versions are compatible. To find a compatible version, select a product row and follow it till it meets your selected product column.

Example

Select PSR1212 version 1.0.3 on the left of the chart. If you follow that row to the right you see that the PSR1212 1.0.3 is compatible with PSR1212 versions 1.0.0, 1.0.1, 1.0.2 and 1.0.3 but is not compatible with PSR1212 version 2.0.0.

Gentner G-Ware, XAP, PSR1212 Compatibility Chart

		G-Ware		XAP 800		TH1	PSR1212
