

SEQUENTIAL POWER UP/POWER DOWN REMOTE ADD ON, TURN ON ACCESSORIES

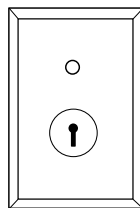

PS215

UB120 Available 2nd Quarter 2002

US240 Available 2nd Quarter 2002

KL3R

PS215, UB120, UB240 and KL3R SPECIAL FEATURES:

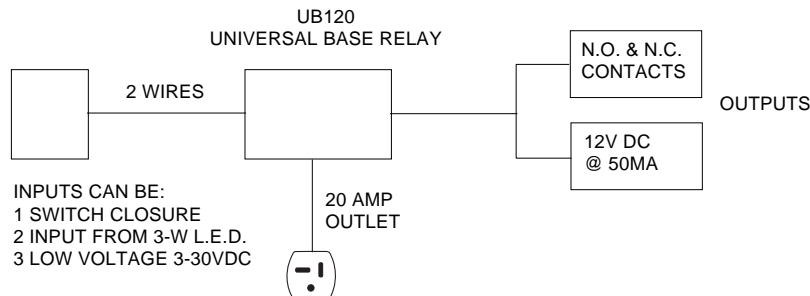

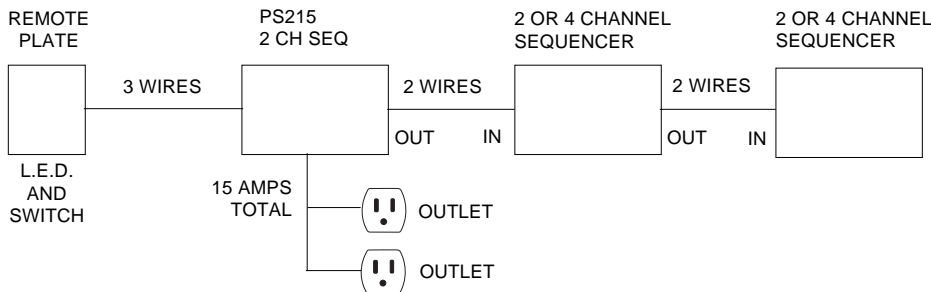

PS215 Two-Channel Sequencer

- Dual box form factor
- 15 amps total current available, 2 outlets
- Sequences CH 1 and CH 2 (jumper programmable delay 1, 5, 10 and 30 sec.)
- L.E.D. power, sequencing status, and channel indicators
- Inputs: 3-wire remote interface, daisy chain communications port
- Outputs: daisy chain/communications port
- Spike and surge protection
- Self-contained low voltage power supply
- UL listing pending

UB120 Universal Base Relay

- Triple box form factor
- 20 amps total current available, 2 outlets
- Trim pot adjustable delay, 1-20 seconds
- L.E.D. power and output indicators
- Inputs: 3-wire remote interface, L.E.D. (from 3-wire) or low voltage 3-30V DC, or contact closure
- Outputs: N.O./N.C. dry contacts, and 12V DC current limited 50 milliamps
- Spike and surge protection
- Self-contained low voltage power supply
- UL listing pending

PS215 SEQUENCER AND UB120 BASE RELAY INSTALLATION OPTIONS

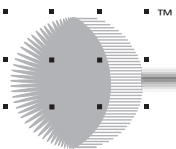

US240 Universal Two-Channel Sequencer

- Quad box form factor
- 40 amps total current available, 2 outlets each 20 amps
- Sequences CH 1 and CH 2 (jumper programmable delay 1, 5, 10 and 30 sec.)
- L.E.D. power, sequencing status, and channel indicators
- Inputs: 3-wire remote interface, N.O./N.C. mom/main (programmable), 3-30V DC low voltage, daisy chain communications port
- Outputs: daisy chain/communications port, N.O./N.C. dry contacts, 12V DC current limited 50 milliamps
- Spike and surge protection
- Self-contained low voltage power supply
- UL listing pending

KL3R

- Single box form factor
- Inputs: 3-wire interface maintained connection (contact closure)
- Key removal in ON/OFF position
- L.E.D. ON/OFF indicator
- Black painted face plate
