12 IN 12 OUT 192kHz FIREWIRE AUDIO RECORDING

Coming in March 2005

AudioFire12 offers the same high quality hardware and software as the new AudioFire8, but with 12 balanced analog inputs and outputs for 24 bit 192kHz recording and playback. If you already have a mixer and tons of microphone / instrument preamps, but you need to get all that audio into your computer then the AudioFire12 is just for you.

The AudioFire12 (and AudioFire8) can grow with your studio since you can daisy chain 2 or more together via FireWire and synchronize them via word clock. AudioFire12 has 12 balanced analog inputs and outputs (TRS), 2 FireWire ports, MIDI I/O, word clock synchronization, and 12 channels of full duplex 24 bit 192kHz recording and

playback.

Hardware Features

- FireWire (IEEE 1394a) interface with 15' cable
- 12 balanced ¼" analog inputs:
 - 113dB (A-weighted) dynamic range
 - +4dBu / -10dBV nominal levels
- 12 balanced ¼" analog outputs:
 - 114dB (A-weighted) dynamic range
 - +4dBu / -10dBV nominal levels
- MIDI I/O
- Sync via word clock
- Supports full duplex 12 channel in, 12 channel out operation at 24 bit, 192kHz sample rate
- Rack mountable single space breakout box
- Heavy-duty aluminum case
- 32-bit / 1.6 gigaflop DSP for digital mixing
 - Near zero latency hardware monitoring

Software Features

- Software console for monitoring, metering, and setting levels
- Low-latency drivers support all major pro audio software:
 - Low Latency ASIO 2.0
 - GSIF 2.0 (Gigastudio 3 w/ low latency MIDI)
 - CoreAudio & CoreMIDI

System Requirements

- PC System requirements:
 - Windows XP
 - 256 MB RAM (512 MB recommended)
- Mac System Requirements
 - Mac OS X (10.3.7 or later)
 - G4 or better processor
 - 256 MB RAM (512 MB recommended)

Free Audio Software Included

Tracktion, hailed as the easiest to use professional recording and MIDI production software, is a radical new type of music production software - giving you a clean, intuitive, and clutter-free interface without losing professional features like drag-and-drop editing, a built-in sampler, VST plug-in support, track freezing and more... all right at your fingertips.

Over twenty-five plug-ins, including Final Mix!
