

**ELITE SCREENS INC. CEDIA SHOW 2005**

**ANNOUNCED *CINETENSION SERIES, TENSION ELECTRIC SCREEN***

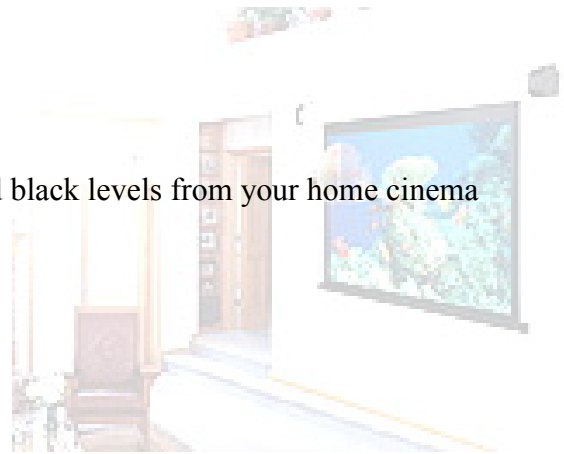

Cerritos, Calif., Sep., 2005 – Elite Screens, the projection screen company that specializes in a wide range of standard size projection screens in various types and sizes, announced today, the breakthrough ***CineTension Series, Tension Electric Screen, ez Cinema Series*** and ***ez Cinema Plus Series***. These screens will be featured at the CEDIA 2005 show in Indianapolis, IN, Booth # 4219.

Elite Screens new ***Tension Electric Screen*** is the latest of the ***CineTension Series***. It is made of a tensioned screen material for those who need a professional grade item at an affordable price. It comes standard with two controllers, an IR (Infra-Red) and RF (Radio-Frequency) remote control. The IR remote is ideal for casual usage in a home-theatre environment while the RF remote allows control at a much greater distance such as giving a presentation or conducting a large conference. Each Screen also comes with two standard 6” L brackets for easy installation and the 3-prong power connection allows a simple *plug and play* operation. The detachable wall switch can be coupled up with an optional extended cable, which will allow the user to set up anywhere needed in the room regardless to their proximity of electrical outlets. The ***CineTension Series, Tension Electric Screen***, comes in different sizes from 84” 4:3 Video Format to 120” 16:9 HDTV format in accordance with the requirements of different end users. All of the 16:9 HDTV format screens come standard with an extra 18” Top Drop margin for those who have screens in rooms with high ceilings. This feature allows the screen to be seen at a comfortable viewing level by vertical position adjustment to a pre-set the level. In addition to the traditional matte white screen material the 4:3 format screens are also available in a

*high contrast gray material*, which increases the contrast and black levels from your home cinema projector.

This **CineTension Series, Tension Electric Screen** , start from MSRP \$839, and is available from Elite Screens Resellers Network. Contact Elite Screens Inc. at (877) 511-1211 and ask for Doni Myers at x231 or Molly Draper at x232 for more detail.

The Elite Screens new **ez Frame Series** features a tensioned high contrast gray screen material, which increases the contrast and black levels from your home cinema projector. The setup is as easy as 1-2-3, by connecting the frame, attaching the screen to the screen-tabs, and it's ready to hang. Also, all ez-frame screens are surrounded in a 3" alumna-black velvet frame to increase the focus point and reduce light from reflecting off of the frame. Elite Screen **ez Frame Series** offers a full line of Fixed Wall Frame Screens ranging in ratios from 4:3 to 16:9 and sizes from 72", 84", 92", 96", 100", 106"... to 200". Elite Screens **ez Frame Series** Start from MSRP \$559.

Elite Screens also offers Home Series, ez Electric, ez Cinema (Plus), Tripod, Manual, and Fixed Frame standard-sized screens that help make the buying decision simple. All of the company's screens provide users with easy instructions and self-installation along with a one-year warranty.

Elite Screens' service also has set industry standards with product quality and pricing unmatched in the projector screen industry. We have committed ourselves to our customer's requirements of the projection screen industry. We carry a large stock of standard size projector screens to accommodate customer demand for product that is immediately available so that we may
