

Here's a list of the coax cables we've recommended in the past for ALS customers who desire to extend the TX-37's antenna further from the base unit.

CABLE TYPE	BELDON#	LOSS/100 Ft	Comments:
RG174	8216	.7 dB	Used Now, Good <50'
RG58 A/U	8219	4 dB	Good < 200'
	9311	3 dB	Good < 200'
VHF/UHF	9913	1 dB	Good < 500'

Notes:

1. Recent quotes on cable were as follows: (Gentner does not stock any coaxial cable.)

Beldon 8216 \$ 0.208 /ft in 500' quantities
 Beldon 8219 \$ 0.247 /ft in 500' quantities
 Beldon 9311 \$ 0.387 /ft in 500' quantities
 Beldon 9913 \$ 0.706 /ft in 500' quantities
