

HR-S9911U (silver) Hi-Fi STEREO SUPER VHS VIDEO CASSETTE RECORDER

(This model offers most of the same features as the HR-S5912US/HR-S5902US plus the following advanced features.)

● DigiPure Technology with 4 MB Frame Memory

● Special Effects Playback with 4 MB Frame Memory

- 1.5x Playback
- Smooth Slow Motion

● Video Navigation

● Pro-Style Editing Features

- Insert Editing with Flying Erase Head
- Audio Dubbing and Level Control

- **J-Terminal** allows computer-controlled image capture and video-to-video editing, using optional JLIP software and Capture Box.

- **Front S-Video/Gold-Plated AV Inputs** ensure signal purity and simplify source connection.

- **Surge Protection Circuitry** safeguards the VCR against power surges; however, it is not a guarantee of protection.

High Quality & High Performance

□ DigiPure Technology with 4 MB Frame Memory

JVC's exclusive digital technologies maximize Super VHS benefits by reproducing vivid colors most realistically, offering **crisp rendition** of image contours, and improving the S/N ratio.

- **Digital Wide TBC** (Time Base Corrector)
- **3-Dimensional Digital Circuit with 4 MB Frame Memory** to make the following possible:
 - **Precision 3-D Color Circuit** for clearer color separation.
 - **Digital 3-D YNR/CNR** to improve S/N ratio.
 - **Precise Digital 3-D Y/C Separation** to reduce dot interference.
- **Digital R³ Picture System** to enhance detail.

□ Special Effects Playback with 4 MB Frame Memory

- **1.5x Playback** lets you speed up your viewing to reduce a 1-hour program to 40 minutes with a noiseless picture. (Audio is not played back.)
- **Smooth Slow Motion** lets you take a closer, distortionless look at those close calls and great plays.

□ Video Navigation

Information on the programs you record is stored in **VCR's internal memory** — about **2000 titles!** So, to watch something you've recorded, just browse through the program lists — these can be listed by **the tape number** assigned to each cassette, **date** of recording, or program category (like movies, sports, news, etc.).

□ Pro-Style Editing Features

- **Insert Editing** lets you replace the original picture without affecting the sound (linear audio track). The **Flying Erase Head** makes sure that the transition points between recordings are distortion-free.
- **Audio Dubbing** enables you to dub your own soundtrack over the original sound (monaural linear track) while leaving the picture as it is. Spice up your recordings with some background music. In addition, **Audio Level Control** provides professional flexibility.

HR-J692US (black) Hi-Fi STEREO VHS VIDEO CASSETTE RECORDER

● Hi-Fi VHS Stereo with MTS Decoder

● Plug & Play

● SQPB (S-VHS Quasi Playback)

● Picture Control

● Full-Function Remote Control

● Shuttle Plus

● Express Programming

● Auto SP ♦ EP Timer Recording

● Pro-cision 19μ Heads

High Quality & High Performance

□ Hi-Fi VHS Stereo with MTS Decoder

Hi-Fi VHS's **broad dynamic range** delivers sound quality rivaling CDs for a **maximum-impact** home theater experience, while the **built-in MTS decoder** lets you record stereo and SAP TV broadcasts.

□ SQPB (S-VHS Quasi Playback)

Allows VHS VCR to **play back a tape recorded in Super VHS**, with regular VHS resolution. It is a convenient way to watch tapes recorded using an S-VHS deck or camcorder.*
* This function does not deliver Super VHS resolution.

- **HQ Circuits (WCL, DE, YNR)**
- **Digital AV Tracking**
- **PLL Frequency-Synthesized 181-Channel Tuner**
- **Timer Overlap Warning** ● **Head Cleaning Warning**
- **Front AV Inputs** enable easy connection with another VCR or camcorder for editing.
- **Instant ReView** for simple playback of timer-recorded programs.
- **Multilingual Color On-Screen Menu** (English/Spanish/French)
- **Skip Search** ● **Auto Index**
- **Multiple Speed Search**
- **Repeat Playback** (up to 100x)
- **Next Function Memory** ● **Tape Position Indicator**
- **1-Year/8-Event Programmable Timer**

□ Picture Control

Lets you choose from 3 different settings to **best match the material you are viewing.**

- EDIT** :Minimizes picture degradation during editing (recording and playback).
- SOFT** :Reduces image coarseness when viewing overplayed tapes containing a lot of noise.
- SHARP** :Clearer, sharper-edged picture when viewing images with lots of flat, same-colored surfaces such as cartoons.

□ Pro-cision 19μ Heads

Improved EP Playback Picture – These Super VHS-grade heads are only **19 microns** wide to **minimize crosstalk** during EP playback, contributing to **sharper image contours** and highly **stable colors**.

Plug & Play

Simply hook up the antenna and **plug in the VCR!** You get **Auto Clock Setting**, including current time, date, and biannual **Auto Daylight Saving Time adjustments**, plus **Auto Tuner Setting** to lock-in all receivable channels in your area.

Full-Function Remote Control

The **Full-Function Remote Control** gives you **command over your VCR**, and can also be used to perform certain operations for **specified models of TVs**. Enjoy **complete video control** from one "user-friendly" remote.

Shuttle Plus

The **full tape accessing flexibility** of a traditional jog/shuttle control, plus more, in **one easy-to-use button** on the remote control. Enjoy fingertip control of **frame advance**, **variable slow motion**, **multiple-speed search**, **Index Search** (± 9 either direction), as well as **on-screen menu** operation.

Express Programming

Simply follow a **single row of buttons** on the remote, and before you know it you've programmed the timer manually.

Auto SP \rightarrow EP Timer Recording

Recording is done in SP as long as possible, then **EP is automatically engaged** so that the **entire program** fits on the tape. **No more missed endings!**

HR-S2912US (silver)/HR-S2902US (black)

Hi-Fi STEREO SUPER VHS VIDEO CASSETTE RECORDER

(These models offer the same features as the HR-J692US plus the following advanced features.)

High Resolution Super VHS

Super VHS ET Recording

Active Video Calibration

- **Child Lock** lets parents disable VCR operation while they're away.
- **Front S-Video/AV Inputs** enable easy connection with another VCR or camcorder by way of S-Video cable for editing.
- **Permanent Program** function keeps programmed timer information in the deck's memory even if power is interrupted. **You won't have to re-program the timer after a power outage!**

High Quality & High Performance

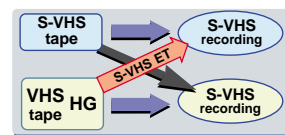

High Resolution Super VHS

Super VHS offers **over 400 lines of horizontal resolution** — for a **+60% better picture** than ordinary video. This is precisely the kind of high resolution you'll need to **record high quality satellite programs** or **edit from digital video cameras**. Super VHS is also ideal for creating **master tapes**, and since resolution remains high even in EP, you can make **high quality extended-time recordings**.

Super VHS ET Recording

Newly developed **Super VHS ET** (Expansion Technology) allows the **broader-bandwidth Super VHS signal** to be recorded on standard VHS tapes (high grade recommended). So you can easily enjoy high resolution images even with the more **widely available VHS cassettes**.(Depending on tape quality, some noise may appear in EP mode.)

Active Video Calibration

The **Intelligent IC** automatically calibrates tape quality and video head condition to optimize and **maintain recording and playback performance for the lifetime of the VCR**.

Picture Control

Lets you choose from 4 different settings to **best match the material you are viewing**.

- AUTO** : Provides optimized picture benefits of Active Video Calibration.
- EDIT** : Minimizes picture degradation during editing (recording and playback).
- SOFT** : Reduces image coarseness when viewing overplayed tapes containing a lot of noise.
- SHARP** : Clearer, sharper-edged picture when viewing images with lots of flat, same-colored surfaces such as cartoons.

HR-S3912US (silver)/HR-S3902US (black)

Hi-Fi STEREO SUPER VHS VIDEO CASSETTE RECORDER

(These models offer the same features as the HR-S2912US/HR-S2902US plus the following advanced features.)

VCR Plus+ ("Cable Eye" Cable Box Controller ready with free coupon included)

24-Hr. Quick Programming

Advanced Jog Dial on VCR

Multi-Brand TV/Cable/DBS Compatible Remote

- **AV Compu Link** for one-touch control of entire AV system (only on select JVC products).
- **Rec Link** enables the VCR to automatically turn on and record a program when a connected satellite receiver or cable box turns on*.

*External unit must be equipped with timer.

Easy Operation

VCR Plus+ ("Cable Eye" Cable Box Controller ready with free coupon included)

VCR Plus+ for instant timer programming just by inputting a PlusCode™ number. And just send in a coupon to get a free infrared cable box controller for timer-recording of cable programs. You won't have to go through a lengthy set-up process either, since VCR Plus+ Guide Channels are set "on-the-fly" while you program.

24-Hr. Quick Programming

24-Hr. Quick Programming makes timer setting for a program within 24 hours as easy as push-and-turning the Advanced Jog dial.

Advanced Jog Dial on VCR

Everything from **frame-by-frame** playback to **forward and reverse 1/6 speed slow motion**, **search** and **pause** are precisely controllable by push-and-turning operation of the Jog Dial right on the front of the VCR.

Multi-Brand TV/Cable/DBS Compatible Remote

Enjoy complete system control from one "user-friendly" remote. **Multi-brand** compatibility lets you operate **your VCR, TV*, cable box* or satellite receiver*** — including **DIRECTV and DISH Network™** — with the **same remote**.

* For compatible brands, please consult your JVC dealer.

HR-S5912US (silver)/HR-S5902US (black)

Hi-Fi STEREO SUPER VHS VIDEO CASSETTE RECORDER

(These models offer the same features as the HR-S3912US/HR-S3902US plus the following advanced features.)

Pro-Style Editing Features

- **Insert Editing with Flying Erase Head**
- **Audio Dubbing**

Multi-Brand TV/Cable/DBS Compatible Remote with Glow Keys

Easy Operation

Pro-Style Editing Features

- **Insert Editing** lets you replace the original picture without affecting the sound (linear audio track). The **Flying Erase Head** makes sure that the transition points between recordings are distortion-free.
- **Audio Dubbing** enables you to dub your own soundtrack over the original sound (monaural linear track) while leaving the picture as it is. Spice up your recordings with some background music.

Multi-Brand TV/Cable/DBS Compatible Remote with Glow Keys

In addition to the convenience of controlling your VCR, TV, **cable box** or **satellite** (DIRECTV and DISH Network™) receiver using a single hand unit*, you can also enjoy worry-free remote operation even in darkened rooms since its buttons **glow in the dark** to minimize mistakes.

*For compatible brands, please consult your JVC dealer.
