Dynamic Optimum High-power Circuit

Super Optimum High-power Circuit

The pictured DOHC is the KS-Ax6750. The KS-Ax6550 and KS-Ax6350 share a common chassis. The pictured SOHC is the KS-Ax4750. The KS-Ax4550 shares a common chassis.

Nikki Sixx, Producer and Founder of America's Records. Founding Member, Motley Crue and 58.

Shaun Palmer, Snowboard and Mountain Bike World Champion.

BRIDGEABLE 2-CHANNEL POWER AMPLIFIER KS-Ax6750

- Continuous Power (RMS) of 150W/channel, into 2 ohms, 10Hz-60kHz, at no more than 0.04% Total Harmonic Distortion
- Max. Power Output of 900W
- 2 Channel / 3 Way Operation
- MOS FET Output Stage

BRIDGEABLE 4-CHANNEL POWER AMPLIFIER KS-Ax6350

- Continuous Power (RMS) of 50W/channel, into 2 ohms, 10Hz-60kHz, at no more than 0.04% Total Harmonic Distortion
- Max. Power Output of 560W
- 4 Channel / 5 Way Operation

BRIDGEABLE 4-CHANNEL POWER AMPLIFIER KS-Ax6550

- Continuous Power (RMS) of 70W/channel, into 2 ohms, 10Hz-60kHz, at no more than 0.04% Total Harmonic Distortion
- Max. Power Output of 780W
- 4 Channel / 5 Way Operation

BRIDGEABLE 4-CHANNEL POWER AMPLIFIER KS-Ax4550

- Continuous Power (RMS) of 50W/channel, into 2 ohms, 10Hz-50kHz, at no more than 0.08% Total Harmonic Distortion
- Max. Power Output of 540W
- Variable Input Level Control
- Speaker Input Terminals

BRIDGEABLE 2-CHANNEL POWER AMPLIFIER KS-Ax4750

- Continuous Power (RMS) of 100W/channel, into 2 ohms, 10Hz-50kHz, at no more than 0.08% Total Harmonic Distortion
- Max. Power Output of 560W
- Variable Input Level Control

Sophisticated, smooth motion like PC graphics and seamless integration into a car entertainment system

The new KD-LH1000 CD Receiver is CD-R/CD-RW compatible and comes equipped to blast out 200 watts of audio power. Contains subwoofer output terminals with level/frequency control and 2 pairs of gold-plated line output terminals that not only ensure long-term reliability and durability but allows for easy output. The 3D Dot-Matrix Multi-Color LCD Display comes with contrast control

that enables you to customize your display panel from a list of over 1,700 colors. A wide variety of animations and patterns for start up and changing functions are also on hand to add to your mobile excitement. Features that have been added for your convenience include a flip-down face, station name registration and a round-shaped wireless remote control.

JVC's new 3DLH Series features a full-motion 3D graphics display with variable color backlight for easy operation and visual confirmation of status and completed operations.

CD - Specific Display	3D Graphic Display (car)	Tuner - Specific Display	3D Graphic Display (scuba)
CD Changer - Specific Display	3D Graphic Display (skateboarding)	Speaker Balance - Specific Display	3D Graphic Display (electric guitar)

12 custom display colors are preset but you can choose your own custom display with 1,728 colors available at your fingertips.

The KD-LH1000 is anything but ordinary. With an innovative flip-down face that allows you to easily change CD's without distraction, and with its ultramodern look these receivers are off the charts. To add to its appeal it has a palette of 1,728 colors for the background display. 12 custom colors are preset, but you are encouraged to mix the 12 gradations of the red, green and blue primary colors to create a background all your own.
