- 24-Hr. Quick Programming

■ Advanced Jog Dial on VCR

■ Plug & Play

- Active Video Calibration
- Picture Control
- Multi-Brand TV/Cable/DBS
Compatible Remote with Glow Keys
- Shuttle Plus
- Auto SP→EP Timer Recording

Excite your senses.

High Quality & High Performance

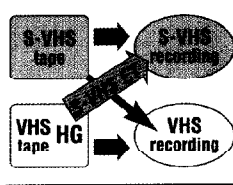

High Resolution Super VHS

Super VHS offers over 400 lines of horizontal resolution — for a +60% better picture than ordinary video. This is precisely the kind of high resolution you'll need to record high quality satellite programs or edit from digital video cameras. Super VHS is also ideal for creating master tapes, and since resolution remains high even in EP, you can make high quality extended-time recordings.

Super VHS ET Recording

Newly developed Super VHS ET (Expansion Technology) allows the broader-bandwidth Super VHS signal to be recorded on standard VHS tapes (high grade recommended). So you can easily enjoy high resolution images even with the more widely available VHS cassettes. (Depending on tape quality, some noise may appear in EP mode.)

Hi-Fi VHS Stereo with MTS Decoder

Hi-Fi VHS's broad dynamic range delivers sound quality rivaling CDs for a maximum-impact home theater experience, while the built-in MTS decoder lets you record stereo and SAP TV broadcasts.

Active Video Calibration

The Intelligent IC automatically calibrates tape quality and video head condition to optimize and maintain recording and playback performance for the lifetime of the VCR.

Picture Control

Lets you choose from 4 different settings to best match the material you are viewing.

- **AUTO** Provides optimized picture benefits of Active Video Calibration.
- **EDIT** Minimizes picture degradation during editing (recording and playback).
- **SOFT** Reduces image coarseness when viewing overlapped tapes containing a lot of noise.
- **SHARP** Clearer, sharper-edged picture when viewing images with lots of flat, same-colored surfaces such as cartoons.

Easy Installation & Operation

Pro-Style Editing Features

- **Insert Editing** lets you replace the original picture without affecting the sound (linear audio track). The Flying Erase Head makes sure that the transition points between recordings are distortion-free.
- **Audio Dubbing** enables you to dub your own soundtrack over the original sound (monaural linear track) while leaving the picture as it is. Spice up your recordings with some background music.

Easy Programming Option

Three programming functions to simplify timer recording.

- **VCR Plus+** for instant timer programming just by inputting a PlusCode[™] number. And just send in a coupon to get a free infrared cable box controller for timer-recording of cable programs. You won't have to go through a lengthy set-up process either since VCR Plus+ Guide Channels are set "on-the-fly" while you program.
- **Express Programming** for easy manual timer setting just by following a single row of buttons on the remote.
- **24-Hr. Quick Programming** makes timer setting for a program within 24 hours as easy as push-and-turning the Advanced Jog dial.

Either way you go, you get worry-free timer recording because the **Permanent Program** function keeps programmed timer information in the deck's memory even if power is interrupted. You won't have to re-program the timer after a power outage!

Advanced Jog Dial on VCR

Everything from frame-by-frame playback to variable-speed slow motion, search and pause are precisely controllable by push-and-turning operation of the Jog Dial right on the front of the VCR.

Plug & Play

Simply hook up the antenna and **plug in the VCR!** You get **Auto Clock Setting**, including current time, date, and biannual **Auto Daylight Saving Time** adjustments, plus **Auto Tuner Setting** to lock-in all receivable channels in your area.

Multi-Brand TV/Cable/DBS Compatible Remote with Glow Keys

In addition to the convenience of controlling your VCR, TV, cable box or satellite (DIRECTV and DISH Network[™]) receiver using a single hand unit*, you can also enjoy worry-free remote operation even in darkened rooms since its buttons **glow in the dark** to minimize mistakes.

*For compatible brands please consult your JVC dealer.

Shuttle Plus

The full tape accessing flexibility of a traditional jog/shuttle control, plus more, in one easy-to-use button on the remote control. Enjoy fingertip control of frame advance, variable slow motion, multiple-speed search, Index Search (±9 either direction), as well as on-screen menu operation.

Auto SP→EP Timer Recording

Recording is done in SP as long as possible, then EP is automatically engaged so that the entire program fits on the tape. **No more missed endings!**

OTHER FEATURES

- **Pro-cision 19µ Heads** reduce crosstalk and improve EP playback picture.
- **HQ Circuits (WCL, DE, YNR)**
- **Digital AV Tracking**
- **PLL Frequency-Synthesized 181-Channel Tuner**
- **Rec Link** enables the VCR to automatically turn on and record a program when a connected satellite receiver or cable box turns on.*
- **Child Lock** lets parents disable VCR operation while they're away.
- **AV Compu Link** for one-touch control of entire AV system (only on select JVC products).
- **Front S-Video/AV Inputs** enable easy connection with another VCR or camcorder by way of S-Video cable for editing.
- **Instant ReView** for simple playback of timer-recorded programs.
- **Multilingual Color On-Screen Menu** (English/Spanish/French)
- **Timer Overlap Warning**
- **Head Cleaning Warning**
- **Skip Search**
- **Auto Index**
- **Auto Daylight Saving Time**
- **Multiple Speed Search**
- **Repeat Playback** (unlimited/up to 100x)
- **Next Function Memory**
- **Tape Position Indicator**

*External unit must be equipped with timer.

SPECIFICATIONS

Format	: S-VHS VHS NTSC standard with Hi-Fi VHS audio
Power requirement	: AC 120 V 60 Hz
Max. recording time	: SP : 210 min. (with ST-210 cassette) EP : 630 min. (with ST-210 cassette)
Hi-Fi audio frequency response	: 20 Hz — 20,000 Hz
Channel coverage	: VHF : Channels 2 — 13 UHF : Channels 14 — 69 CATV : 113 channels
Dimensions (WxHxD)	: 435 x 94 x 247 mm (17-3/16" x 3-3/4" x 9-3/4")
