Vision Scope

T-2200 Series & T-2600

Our uniquely designed stereoscopes provide a rubber base for stability and protection. Magnifications can be varied by changing the power of the eyepiece optics to provide bright, clear stereoscopic (3-D) images. These stereomicroscopes are value-priced to meet most budgets.

Additional Features and Benefits

- **Dual Rocker Switch** Separate on/off switch for transmitted & incident light
- **Dimmer Control** Variable intensity controls for incident light
- **Oversized Focus Knob** Makes it easy to focus
- **Interchangeable Head** Using the same base, simply change the head from 2x & 4x to a 1x & 3x
- **3-way transmitted light** Use top, bottom, or both lights at the same time.
- **360° Rotatable Head** Ideal for viewing specimens from either side of the scope
- **Transmitted Fluorescent** Provides cool operation on stage area

SPECIFICATIONS

Weight	12 lbs / 6 kgs	Light Source	Upper and Lower - Fluorescent transmitted light below and variable
Base Material	Metal construction		Halogen incident light above.
