

## Wireless AV

---

The Wireless AV system transmits live video through the air instead of hard wires, allowing ultimate flexibility in positioning ClearOne cameras.

## Features

---

- Wireless connection can extend over 700 feet
- 2.4GHz transmission frequency
- NTSC and PAL video capable
- Stereo L/R audio
- Four selectable channels
- 12VDC power supply
- Y power splitter
- Velcro mount

## FlexLite

---

FlexLite is perfect for adding light over documents and other objects.

## Features

---

- Connects easily to any of the FlexCam cameras

## Scan Converter

---

The Scan Converter provides simultaneous display on both a TV screen and PC monitor with resolutions up to 1152x864. It provides VGA (PC) to video format conversion (NTSC composite and S-VHS).

## Features

---

- Supports scan rates between 640x480 and 1024x768 @ 75Hz
- True plug and play
- Compatible with all PCs
- Supports NTSC, PAL & SECAM video
- Composite, S-VHS and analog RGB for SCART
- Horizontal/vertical picture positioning
- Light weight
- IR remote control
- Includes 15-pin HD extension cable, AV cable, S-video (S-VHS) cable, mini-DIN to SCART cable (PAL only), and power supply
