KNOWLEDGE THROUGH VISION

M Eye Camera

The M  Eye digital camera allows teachers to inspire a whole new series of conversation with their students. With its ease of USB image download, processing visual information is easy! When capturing images, use the four AAA batteries included. Full-screen image viewing is available with our three software programs, allowing teachers to easily integrate technology into their classroom. From video to movie editing, full screen viewing - both live and captured - it provides a more interactive teaching environment.
