Multi Video Product
MVP-100

The MVP-100, is the first camera with a durable exterior finish boasting aluminum construction to meet the rigors of daily use. The Multi Video Product or MVP is a line of high resolution cameras with multiple signal outputs. The MVP-100 has high resolution output signals for RCA, USB, VGA and network. This camera comes complete with Applied Vision™ Software for USB. The RJ-45 or network output works with any Internet Explorer and does not require any localized software. The RCA output is ideal for VCR's, televisions or multimedia projectors, while the VGA input and output (15 pin D Sub) is designed to maximize the interaction of your computer and multimedia projector. Manage of your audio visual electronics through the easy to use touch pad.

Additional
