INTRODUCING

Ken-A-Vision's Memory Microscope

This new concept in microscopy includes its own memory chip, an easy to use touch panel and an adjustable LCD monitor attached for viewing. Connect the microscope to a TV or a computer or the network so it can be viewed by a large audience. Save up to 30 images, compare 1 or 3 images to a live picture, or download images to your computer!

LCD Screen

- Attached Adjustable LCD Screen
- View Live Picture
- View Recorded Images or Sequences of Images
- Compare 1 to 3 Recorded Slides to Each Other or to the Live Picture

Touch Keypad

- Access Menu
- Record Single or Time-lapse Images
- Play Back or Erase Images
- Create Split Screen Options
- Set Time-lapse Intervals

Internal Imaging Chip

- Split Screen Options (1, 2 or 4 images simultaneously)
- Record Single or Time-lapse Images
- Erase Images
- Playback Single or Sequence of Images
- Create Comparisons Between Stored Images or Live and Stored Images

Multiple Connections

- RJ-45 – Network Connection
- USB – Digital – Computer Connection
- RCA – Composite Video – Monitors or Multi-media Projectors

Made in the USA
